REISSUE APPLICATIONS FILED

Notice under 37 CFR 1.11(b). The reissue applications listed below are open to inspection by the general public in the indicated Examining Groups and copies may be obtained by paying the fee therefor (37 CFR 1.21(b)).

3,944,876, Re. S.N. 380,074, Filed May 20, 1982, Cl. 315/205, RAPID STARTING OF GAS DISCHARGE LAMPS, James G. Helmuth, Owner of Record: *Chadwick Helmuth Co., Inc., Monrovia, Calif.,* Attorney or Agent: William W. Haefliger, Ex. Gp.: 256

4,092,867, Re. S.N. 381,002, Filed May 21, 1982, Cl. 73/609, ULTRASONIC SCANNING APPARATUS, Terrance Matzuk, Owner of Record: *Inventor,* Attorney or Agent: Robert D. Yeager, et al., Ex. Gp.: 244

4,204,256, Re. S.N. 380,340, Filed May 20, 1982, Cl. 364/431, INPUT-OUTPUT UNIT FOR A MICROPROCESSOR ENGINE CONTROL SYSTEM, Winfried Klotzner, Owner of Record: *Robert Bosch, G.M.B.H., Stuttgart Germany,* Attorney or Agent: Stephen H. Frishauf, et al., Ex. Gp.: 236

4,261,810, Re. S.N. 382,515, Filed May 27, 1982, Cl. 208/138, STARTUP PROCEDURE FOR REFORMING CATALYSTS, William D. McHale, et al., Owner of Record: *Mobil Oil Corp., New York, N.Y.,* Attorney or Agent: Charles A. Huggett, et al., Ex. Gp.: 116

4,290,433, Re. S.N. 381,170, Filed May 24, 1982, Cl. 128/665, METHOD AND APPARATUS FOR DETECTING THE PRESENCE OF CARIES IN TEETH USING VISIBLE LUMINESCENCE, Robert R. Alfano, Owner of Record: *Philips Medical System, Inc., Shelton, Conn.,* Attorney or Agent: S.C. Yuter, et al., Ex. Gp.: 335

4,319,988, Re. S.N. 382,150, Filed May 26, 1982, Cl. 209/172.5, SEPARATION OF HIGH GRADE MAGNETITE FROM FLY ASH, Robert G. Aldrich, Owner of Record: *Halomet, Inc., Manlius, N.Y.,* Attorney or Agent: Bert J. Lewen, et al., Ex. Gp.: 312

REQUESTS FOR REEXAMINATION FILED

Notice under 37 CFR 1.11(c). The requests for reexamination listed below are open to inspection by the general public in the indicated Examining Groups. Copies of the requests and related papers may be obtained by paying the fee therefor established in the Rules (37 CFR 1.21(b)).

In the event correspondence to the patent owner is not received, this notice will be considered to be constructive notice to the patent owner and reexamination will proceed (37 CFR 1.248(a)(5) and 1.525(b).

3,434,165, Reexam. No. 90/000,219, Requested: June 17, 1982, Cl. 5/61, HOSPITAL BED, Francis X. Keane, Owner of Record: *Kincoa, Ltd., Chicago, Ill.,* Attorney or Agent: Kurt Kelman, Ex. Gp.: 350, Requester: Robert A. Lundquist, Jonesboro, Ga.

4,146,489, Reexam. No. 90/000,220, Requested: June 23, 1982, Cl. 225/50, POLYOLEFIN GRAFT COPOLYMERS, Robert L. Stambaugh, et al., Owner of Record: *Rohm & Haas, Co., Philadelphia, Pa.,* Attorney or Agent: Patrick C. Baker, Ex. Gp.: 324, Requester: James H. Callahan, Esq., Kenyon & Kenyon, New York, N.Y.

4,291,597, Reexam. No. 90/000,217, Requested: June 10, 1982, Cl. 81/3.48, CORK EXTRACTOR, Herbert Allen, Owner of Record: *Hallen Co., Houston, Tex.,* Attorney or Agent: Margret Anderson, Ex. Gp.: 320, Requester: Hallen Co., Houston, Tex.

4,313,485, Reexam. No. 90/000,221, Requested: June 24, 1982, Cl. 160/328, TRANSPARENT ACCESS CURTAIN FOR COOLERS AND THE LIKE, Kenneth Gidge, et al., Owner of Record: *BSL Corp., Nashua, N.H.,* Attorney or Agent: Morse, Altman, Oates & Dacey, Ex. Gp.: 350, Requester: Necor Corp., Menlo Park, Calif.

Subscription Pricing Information

The annual subscription prices on the following publications have been changed as indicated below:

Title: Official Gazette, Patent Section	
First-class domestic mailing	$360.00
Fourth-class domestic mailing	250.00
Fourth-class foreign mailing	312.00
Single copies each, domestic	7.50
Single copies each, foreign	9.40

Back issues will not be furnished.

This change is effective with Government Periodicals and Subscription Services Price List 36, dated Summer, 1982.

Foreign first-class mailing rates will be furnished upon request. Direct all inquiries and subscription requests to:

Superintendent of Documents
U.S. Government Printing Office
Washington, D.C. 20402

Checks for subscription orders should be made payable to the Superintendent of Documents. If a Deposit Account with the Superintendent of Documents is to be used, please include the Deposit Account Number with the order.

DEPARTMENT OF COMMERCE
Patent and Trademark Office
37 CFR Part 2
[Docket No. 2512-96]

Trademark Applications and Examination Proceedings; Trademark Interference, Concurrent Use, Opposition and Cancellation Proceedings; Trademark Post-Registration Proceedings

Agency: Patent and Trademark Office, Commerce.

Action: Proposed rulemaking.

Summary: Patent and Trademark Office proposes amendments of the rules of practice in trademark cases to clarify and to revise procedures for the examination of applications; appeals from final refusals of registration; the institution and conduct of trademark interference, concurrent use, opposition and cancellation proceedings; the examination of affidavits or declarations under §8 of the Trademark Act; the examination of applications to renew registrations under 9 of the Trademark Act; amendments to registrations under 7(d) of the Trademark Act; and petitions to the Commissioner. The proposed procedures revise or codify existing practices, or simplify procedures, or establish periods of time, to assist the orderly and prompt resolution of issues.

Date: Written comments by Sept. 27, 1982. Hearing, beginning at 10:00 a.m. Sept. 27, 1982.

Addresses: Address written comments to the Commissioner of Patents and Trademark, Washington, D.C. 20231. The hearing will be held in Room 11C24 of Bldg. 3, Crystal Plz., 2021 Jefferson Davis Hwy., Arlington, Va. Written comments and transcript of hearing will be available for public inspection in Room 11E10 of Bldg., 3, Crystal Plz., 2021 Jefferson Davis Hwy., Arlington, Va.

For Further Information Contact: Miss Janet E. Rice by telephone at (703) 557-3551 or by mail marked to her attention and addressed to the Commissioner of Patents and Trademarks, Washington, D.C. 20231.

Supplementary Information: The Patent and Trademark Office is considering amendments to the rules of practice in trademark cases to revise, simplify, rearrange, or delete existing rules, or to codify in rules certain practices which are currently in effect. The rules involved include those which concern the examination and amendment of ex parte applications; appeals to the Trademark Trial and Appeal Board from the final refusal of registration in ex parte applications; the institution and conduct of interference, concurrent use, opposition and cancellation proceedings before the Trademark Trial and Appeal Board; the examination of affidavits or declarations under §8 of the Trademark Act and subsequent proceedings if an affidavit or declaration is refused; the examination of applications for the renewal of registrations under §9 of the Trademark Act and subsequent proceedings if an application for renewal is refused; amendments of registrations under §7(d) of the Trademark Act; and petitions to the Commissioner.

The rules for which amendments are proposed are discussed below. (The designation "S" is used in the Code of Federal Regulations to denominate a rule; lettered ["(a)", "(b)", etc.] subdivisions are subsections of rules; numbered ["(1)", "(2)", etc.] subdivisions are paragraphs within sections or subsections.)

In this preamble to the proposed rulemaking: "Patent and Trademark Office" is abbreviated as "PTO" and "Trademark Trial and Appeal Board" is abbreviated as "TTAB."

Section 2.20. Subsection (b) is proposed to be added to codify the practice whereby a nonofficer of a corporation or association who is authorized to sign a notice of opposition or petition for cancellation may verify the pleading by a declaration in lieu of an oath or affirmation.

Section 2.27(e) is proposed to be added to permit the PTO to retain in confidence, not available for public inspection, any fruits in discovery filed under seal [see proposed amended §2.120(f)] pursuant to a protective order or any testimony filed under seal [see proposed amended §2.125(e)]. Conforming amendments are made in subsections (b) and (d).

Section 2.63 is proposed to be clarified and designated as subsection (a).

Section 2.63(b) is proposed to be added to codify the practice of allowing an applicant to petition to the Commissioner for relief from either an examiner's repeated but nonfinal formal requirement or a final requirement which is limited to subject matter which is appropriate for petitions to the Commissioner, as an alternative to appeal to the TTAB. The proposed rule also requires that a petition be timely and sets a time limit for action after denial of a peition. See proposed §2.146(b) for a description of nonpetitionable subject matter and proposed §2.146(d) for the time limit (thirty days) for a petition.

Section 2.64 is proposed to be designated as subsection (a) and revised to agree with the provision in §2.63(b), permitting petitions to the Commissioner concerning some requirements which have been made final.

Section 2.64(b) is proposed to be added to clarify the existing practice of replying to requests for reconsideration after final action, and to permit entry of amendments accompanying such requests if they place the application in condition for publication or in better form for appeal.

Section 2.65 is proposed to be ameded by the addition of a sentence to provide that a timely and proper petition under §2.63(b) avoids the abandonment of an application. An additional provision is proposed to permit the examiner to allow an applicant additional time to explain and supply an inadvertent omission which would other-

wise have resulted in the application being held abandoned.

Section 2.72 is proposed to be revised to allow nonmaterial changes in the drawing to be supported by specimens which were not necessarily in use at the time the original application was filed.

Section 2.81 is proposed to be revised to clarify the language of the rule.

Section 2.83 is proposed to be deleted because requests to consolidate applications are very rare and the procedure is unworkable. See Official Gazette notice of July 19, 1981, 1009 TMOG 17.

Section 2.94 is proposed to be deleted because interferences are declared only upon petition [see §2.91], which assumes proper review before an interference is declared, and existing §2.94 is unnecessary.

Section 2.95 is proposed to be deleted because the deletion of §2.94 makes §2.95 unnecessary.

Section 2.96 is proposed to be amended to codify existing practice on the issues determinable in an interference and the order of the parties and burden of proof. The last sentence in the amended rule states who is the junior party if two applications have the same filing date but different dates of execution of the applications.

Section 2.97 is proposed to be deleted because it is unnecessary in view of the codification in §2.96.

Section 2.98 is proposed to be amended to make the rule consistent with existing §2.91.

Section 2.99 is proposed to be amended in several respects. The rule has been reorganized to describe the procedure more clearly and logically. Subsection (a) of the proposed amended rule permits the examiner to require an applicant to make a prima facie showing of entitlement to a concurrent use registration if the application and other papers in the file do not show that there are conditions or limitations on the mode or place of use of the marks or the goods in connection with which the marks are used so as to make confusion, mistake, or deception not likely or that the applicant is relying upon a determination by a court of competent jurisdiction [see Trademark Act §2(d) proviso].

Section 2.99(b), (c), and (d)(1), as proposed, describe the procedure to be used to institute a concurrent use proceeding.

Section 2.99(d)(2) and (3), as proposed, codify existing practice on who must file an answer to a notice of institution of a concurrent use proceeding and the effect of not filing an answer.

Section 2.99(e), as proposed, codifies existing practice on the order of the parties and the burden of proof and states who is the junior party if two applications have the same filing date but different dates of execution of the applications. A person specified as an excepted user but who has not filed an application is stated to be a senior party to every party that has an application involved in the proceeding because a party without an application is seeking no relief and therefore has no burden of proving entitlement to relief.

Section 2.99(f), as proposed, privides for the issuance of a concurrent use registration upon the basis of a court's determination of the right of the parties to use their marks in commerce, without the institution of a proceeding by the TTAB, when all of the conditions specified in the rule are fulfilled.

Section 2.99(g), as proposed, codifies existing law that registrations and applications to register on the Supplemental Register and registrations under the Act of 1920 are not subject to concurrent use registration proceedings and implements §26 of the Trademark Act, which provides, inter alia, that applications for the registrations on the Supplemental Register shall not be subject to §17 of the Act, which is the statutory authority for a concurrent use registration proceeding [cf. existing §2.91(b)].

Sections 2.101 and 2.102 are proposed to be interchanged so that those two rules begin with the provisions for obtaining extensions of time to file an opposition and then provide for filing an opposition, thereby describing the procedures in their chronological sequence.

Section 2.101(a) and (b), as proposed, repeat, with revisions to clarify the provisions, existing §2.102(a).

Section 2.101(c), as proposed, codifies the existing practice under existing §2.102(b). In addition, proposed §2.101(c) provides for a maximum extended period, not to exceed 120 days from the date of publication of an application, within which to file a notice of opposition, except when there is a written stipulation or a showing of extraordinary circumstances, so as to avoid inordinate delays caused by ex parte requests for extensions of time.

Section 2.101(d), as proposed, codifies an existing practice which expedites the notification of the TTAB's action on a request for an extension of time.

Section 2.102(a), as proposed, states when an opposition proceeding is commenced, which is important for the application of §2.135.

Section 2.102(b), as proposed, indicates that a notice of opposition should be addressed to the TTAB, which helps to route mail within the PTO.

Section 2.102(c), as proposed, requires that a notice of opposition be filed within thirty days after publication of the application or prior to the expiration of a granted extension of time for filing a notice of opposition.

Section 2.102(d), as proposed, implements the requirement of 13 of the Trademark Act that a notice of opposition be verified, which requirement is contained in existing §2.101(a).

Section 2.102(e), as proposed, requires the payment of the statutory fee for an opposition, provides for the allocation of the fees that are submitted if they are insufficient for the number of classes being opposed or for the number of persons joined as party opposer, and permits the payment of additional fees for additional persons joined as party opposer in the notice of opposition in the same manner as the payment of additional fees for opposing additional classes in the application.

Section 2.102(f), as proposed, provides for the late payment of the opposition fee or fees, subject to the payment of one service charge on behalf of each person joined as a party opposer, when a notice of opposition is not accompanied by at least one full fee to oppose one class by one person, thereby continuing the practice provided by existing §2.101(c). Proposed §2.102(f), further, codifies the practice that, when the notice of opposition is filed without any fee or with a fee insufficient for at least one person to oppose one class in the application, all of the required fees must be submitted within the time fixed by the notice of defect, which will be issued by the TTAB.

Section 2.103, as proposed, clarifies existing §2.103.

Section 2.104, as proposed, clarifies existing §2.104.

Section 2.105, as proposed, clarifies existing §2.105 and codifies the practice thereunder.

Section 2.106(c), as proposed, codifies the practice under existing §2.106(c) that, after an answer is filed, a notice of opposition may be withdrawn without prejudice only with the written consent of the applicant.

Section 2.107, as proposed, codifies the practice under existing §2.107 whereby any pleading, including the answer, may be amended.

Section 2.111(a), as proposed, states when a cancellation proceeding is commenced, which is important for the application of §2.134.

Section 2.111(b), as proposed, indicates that a petition for cancellation should be addressed to the TTAB, which helps to route mail within the PTO.

Section 2.111(c), as proposed, implements the requirement of 14 and 24 of the Trademark Act that a petition for concellation be verified, which requirement is contained in existing §2.112.

Section 2.111(d), as proposed, states the requirement for the payment of the fee(s) due upon filing a petition for cancellation, and, parallel to proposed amended §2.102(e), provides for the allocation of fees and payment of additional fees when more than one class is sought to be cancelled or more than one person is joined as a party petitioner or when both situations exist.

Section 2.112, as proposed, removes the reference to

verification of a petition for cancellation, which is placed in proposed §2.111(c), to clarify the language of the rule, and to state in proposed §2.112(b) the conditions for filing a consolidated petition for cancellation of different registrations owned by the same party.

Section 2.113 is proposed, to be amended to describe the procedure for notifying a registrant of the filing of a petition for cancellation of his registration. The provision in existing §2.113 for notifying a party of the need to correct a formally defective petition has been deleted. It is, and will continue to be, the practice of the TTAB to notify a party when he files a petition without the fee for cancelling at least one class in the registration sought to be cancelled or when a verification has been omitted or is defective. Problems arise when a defective petition for cancellation is filed near the end of the statute of limitations provided by 14(a) or (b) of the Trademark Act. If no fee, or a fee insufficient for a petition to cancel at least one class in respondent's registration, is received prior to the critical fifth anniversary, the TTAB is without jurisdiction to entertain the petition and the minimum jurisdictional fee cannot be paid after the five-year statuate of limitations is effective. Jurisdiction to accept provisionally a defectively executed or verified petition and to prescribe a time to file a properly executed document resides exclusively with the Commissioner pursuant to 35 U.S.C. 26. A petition to the Commissioner is governed by existing §2.146 (a)(2) or proposed §2.146(a)(2).

Section 2.115 is proposed, to be amended in the same manner as proposed amended §2.107.

Section 2.116(b) is proposed to be amended to clarify the language and intent of existing §2.116(b).

Section 2.116(c) is proposed to be amended to clarify existing §2.116(c). Any complaint filed by a party in an interference or concurrent use proceeding would be a petition for cancellation, and the position of the parties in the consolidated proceeding will be set by the TTAB as required.

Section 2.117 is proposed to be amended by the addition of subsections (b) and (c) to codify existing practice when a suspension of proceedings is considered.

Section 2.117(d) is proposed to be added to permit a party to move, or parties to stipulate, for suspension, which usually occurs when negotiations for settlement are undertaken and the parties want proceedings suspended for that purpose.

Section 2.120 is proposed to be amended in several respects commencing with a reorganization of the rule to state how discovery may be taken, then how discovery may be compelled, then how admissions may be requested and the sufficiency of admissions or objectives to requests therefor may be tested, and then how the results of discovery may be used in a proceeding.

Section 2.120(a), as proposed, clarifies the language of the introductory paragraph of existing §2.120.

Section 2.120(b), as proposed, is made applicable to domestic parties, clarifies existing §2.120(a) (1), and codifies the practice thereunder.

Section 2.120(c)(1), as proposed, restates in modified form the provisions of existing §2.120(a)(2), and in addition, proposed §2.120(c)(1) permits oral discovery depositions in foreign countries on motion for good cause or by stipulation of the parties.

Section 2.120(c)(2), as proposed, provides for oral discovery depositions within the United States of foreign parties or their officers, etc. if they will be in the United States during a discovery period.

Section 2.120(d), as proposed, makes specific provision for requests for production and codifies the practice for this kind of discovery.

Section 2.120(e) as proposed, clarifies existing §2.120 (c)(1) and codifies the practices on motions to compel discovery.

Section 2.120(f), as proposed, adds provisions pertaining to protective orders during discovery.

Section 2.1120(g), as proposed, clarifies existing §2.120 (c)(2) and codifies the practice on sanctions for failing to obey orders pertaining to discovery.

Section 2.120(h), as proposed, adds to the discovery rules provisions pertaining to requests for admissions and codifies the practice pertaining to requests for admissions.

Section 2.120(i), as proposed, codifies the practice on pre-trial conferences to resolve dispute over pre-trial questions or issues.

Section 2.120(j), as proposed, clarifies existing §2.120 (a)(3) and codifies the practice on the filing with the TTAB of matter obtained during discovery and the use thereof at trial.

Section 2.121, as proposed, clarifies existing §2.121 and codifies the practice thereunder.

Section 2.122, as proposed, consolidates in one section the rules govering the introduction and admission of evidence in inter partes proceedings before the TTAB.

Section 2.122(a), as proposed, identifies the sources of the law of evidence to be applied in inter partes proceedings.

Section 2.122(b)(1), as proposed, clarifies the language and codifies the practice under existing §2.122(a).

Section 2.122(b)(2) and (3), as proposed, clarify existing §2.126 and codify the practice under existing §2.126.

Section 2.122(c)(1), as proposed, clarifies and adds to the provisions of existing §2.122(c) relating to printed publications. Proposed §2.122(c) would require that an official record or copy thereof offered under the rule be an authentic record or copy pursuant to the Federal Rules of Evidence and would also require that, when a copy of a relevant portion of a printed publication is offered, the copy include the title page and any other page needed to show the place and date of publication, the name and address of the publisher, and the name of the author or the editor, which information is intended to enable the party against whom the evidence is offered to identify what it is.

Section 2.122(c)(2), as proposed, would amend existing §2.122(b) insofar as the existing rule governs the introduction of a copy of a registration owned by any party to a proceeding. An important change would be that a copy of a registration introduction by a party on his own behalf would have to be a certified copy (see 7(e) of the Trademark Act). A second important change would be the elimination of the practice, under existing §2.122(b), of filing, as evidence in a proceeding, two copies showing status and title of a registration pleaded by an opposer or petitioner for cancellation, or filing an order for such copies, with the notice of opposition or petition for cancellation. The procedure whereby an opposer or cancellation petitioner could submit an order for copies of his registration for subsequent attaching to his pleading has not worked well in practice. As a result, a number of opposition and cancellation proceedings have gone to final hearing without a copy of the opposer's or cancellation petitioner's registration, which had to be obtained at that point, provided that the party relying thereon could show that a timely correct order has been sent to the PTO. Since, it is more likely than not that an order for two certified copies of a registration showing status and title would not be filled in time for filing with a notice of opposition or petition for cancellation §2.122 is proposed to be amended to provide for the filing thereof only with a notice of reliance during a testimony period. This would not preclude attaching a copy of a pleaded registration as an exhibit to a notice of opposition or petition for cancellation purely for informational purposes but not for evidentiary purposes.

Section 2.122(d), as proposed, codifies the practice that copies of third-party registrations need not be certified to be offered in evidence.

Section 2.122(e), as proposed, clarifies existing §2.122 (d) and codifies the practice under existing §2.122(d).

Section 2.123(a)(1), as proposed, provides that testimony may be taken by depositions upon oral questions or upon written questions and further provides that a party against whom a testimonial deposition will be taken may move to have the deposition taken upon oral questions if the witness, even though he may be a foreign party or a person who usually resides in a foreign country, is, or at the time of the deposition will be, in the United States

or any territory under the control and jurisdiction of the United States.

Section 2.123(a)(2), as proposed, provides that testimony in a foreign country is ordinarily to be taken by a deposition upon written questions but that the party against whom a testimonial deposition will be taken may move to have it taken by oral questions in a foreign country and further provides that the parties may stipulate to have testimony taken by an oral deposition in a foreign country.

Section 2.123(e)(3), as proposed, codifies the practice that a party who did not receive a proper notice of the taking of a deposition with respect to any witness may cross-examine that witness under protest while preserving his right to move to strike the whole of the testimony of that witness.

Section 2.123(k), as proposed, codifies the practice that objections to testimony on arounds of alleged lack of relevancy, materiality, or competency should be raised in a brief at final hearing but should not be raised by a motion to strike testimony regularly taken.

Section 2.124, as proposed, sets out the procedure to be followed in taking a discovery deposition or a testimonial deposition upon written questions.

Section 2.124(a), as proposed, provides that a deposition upon written questions may be taken before any of the persons described in Rule 28 of the Federal Rules of Civil Procedure.

Section 2.124(b)(1) as proposed, provides for the kind of notice which must be served by a party desiring to take a testimonial deposition upon written questions and further provides that a copy of the notice, without the questions, must be filed with the TTAB.

Section 2.124(b)(2), as proposed, provides for the kind of notice which must be served by a party desiring to take a discovery deposition upon written questions and further provides that a copy of the notice, without the questions, must be filed with the TTAB. This paragraph also provides that, if the name of the person to be deposed is not known to the party who will take the deposition, a general description sufficient to identify the class or group to whom the prospective witness belongs shall be stated in the notice and the party to be deposed shall designate one or more discovery witnesses.

Section 2.124(c), as proposed requires that every notice of deposition upon written questions name or describe by title the officer before whom the deposition will be taken.

Section 2.124(d)(1), as proposed, specifies the procedure and timetable for serving the questions, objections, and substitute questions for a deposition upon written questions.

Section 2.124(d)(2), as proposed, provides that the TTAB may reset the times specified in proposed §2.124 (d)(1), and, when a testimonial deposition is to be taken upon written questions, may suspend or reschedule other proceedings in the matter to allow for the completion of the deposition.

Section 2.124(e), as proposed, provides the procedure for sending the notice and questions to the officer designated in the notice, the taking of the deposition, and the certification and mailing of the transcript to the party who took the deposition.

Section 2.124(f), as proposed, provides for the service of copies of the transcript and exhibits, states that the party who took the deposition is responsible for the correctness of the transcript, permits the use of a discovery deposition as provided by proposed §2.120(j), and provides for the filing with the TTAB of a testimonial deposition, a copy thereof, and the exhibits.

Section 2.124(g), as proposed, states that objections to questions and answers may be considered at final hearing.

Section 2.125(a), as proposed, provides for the service of a transcript of an oral testimonial deposition and the exhibits, and, in respect of that requirement, continues the rule of existing §2.125(a).

Section 2.125(b), as proposed, makes the party who took a deposition responsible for its correctness and for serving the adverse party with a corrected transcript or corrected pages.

Section 2.125(c), as proposed, continues the requirement of existing 2.125(a) that a certified transcript, a copy of the transcript, and the exhibits be filed promptly with the TTAB and further provides that notice of filing be served on the adverse party and that a copy of the notice be filed with the TTAB.

Section 2.125(d), as proposed, continues the requirements of existing §2.125(b).

Section 2.125(e), as proposed, provides that the TTAB, on motion, may order that any part of a deposition transcript or exhibits that directly disclose a trade secret or other confidential research development, or commercial information may be filed under seal and kept confidential and provides for sanctions for failure to comply with the order.

Section 2.126 is proposed to be deleted because the substance of the existing section has been shifted to proposed §2.122(b)(2) and(3).

Section 2.127(a), (b), and (c), as proposed, clarify existing §2.127(a), (b), and (c) and codify the practice under existing §2.127(a), (b), and(c).

Section 2.127(d), as proposed, codifies the practice with respect to suspending all matters in a case not germane to a potentially dispositive motion until the determination thereof.

Section 2.128(a)(1), as proposed, clarifies existing §2.128(a) except that the rule requiring copies of a brief is shifted to proposed §2.128(b).

Section 2.128(a)(2), as proposed, codifies the practice of having the TTAB set the briefing schedule by order when proceedings are consolidated, or when there is a counterclaim, or when more than two parties are involved.

Section 2.128(a)(3), as proposed, contains a new provision enabling the TTAB to decide that a case has been conceded, resulting in an adverse judgment, when a party fails to file a brief at final hearing.

Section 2.128(b), as proposed, clarifies and codifies the practice under the last sentence of existing §2.128(a) and existing §2.128(b).

Section 2.129(a), as proposed, clarifies and codifies the practice under §2.128(c) and existing §2.129(a).

Section 2.129(b), as proposed, clarifies existing §2.129(b).

Section 2.129(c), as proposed, clarifies existing §2.129 (c), from which the language referring to a decision on a motion which is finally dispositive of a case has been deleted because any requests for reconsideration or modification of a decision issued on a motion would be made under proposed §2.127(b).

Section 2.131, as proposed, clarifies and codifies the practice under existing §2.131. The effect is to eliminate the dichotomy between inter partes and ex parte issues and to provide for the determination by the TTAB of all issues that have been expressly pleaded by the parties or tried by their express or implied consent and to reserve for remand to the examiner for reexamination only issues neither pleaded nor tried but which appear to make the mark of an applicant unregistrable.

Section 2.132(a), as proposed, changes the practice under existing §2.132(a) by eliminating the step of having the TTAB issue an order to the plaintiff to show cause why judgment should not be entered against him. Under the proposed §2.132(a), the plaintiff will have fifteen days from the date of service of the defendant's motion for dismissal within which to show why judgment should not be rendered against the plaintiff.

Section 2.132(b), as proposed, clarifies existing §2.132(b).

Section 2.134(a), as proposed, codifies the practice under existing §2.134 that the written consent of the adverse party is required to avoid judgment against a cancellation respondent who applies to cancel his registration under §7(d) of the Trademark Act while the registration is involved in a proceeding.

Section 2.134(b), as proposed, provides that, after the commencement of a cancellation proceeding, if a re-

spondent (registrant) permits his registration to be cancelled under §8 of the Trademark Act or fails to renew his registration under §9 of the Act, the resulting demise of the registration shall be deemed to be the equivalent of a cancellation of the registration by request of the respondent without the written consent of the adverse party and will result in judgment against the respondent §2.134(b) is proposed to avoid situations where a respondent in a cancellation proceeding may moot the case and avoid judgment because of the fortuitous circumstance that his registration happens to reach its sixth anniversary or twentieth anniversary while a proceeding is pending and the respondent exploits this situation by simply failing to file an affidavit under §8 of the Act or a renewal application under §9 of the Act.

Section 2.135, as proposed, codifies the practice under existing §2.135, which is parallel to the parties under existing §2.134 and proposed §2.134(a), that the written consent of the adverse party is required to avoid judgment against an applicant who abandons his application or mark while the application is involved in an opposition.

Section 2.142(a), as proposed, clarifies existing §2.142(a).

Section 2.142(b), as proposed, requires the examiner to file with the TTAB a statement answering every point in the appellant's brief and requires the examiner to file the statement within sixty days after appellant's brief is sent to the examiner by the TTAB.

Section 2.142(c), as proposed, codifies the practice that all requirements made by the examiner and not the subject of appeal shall be compiled with prior to the filing of an appeal.

Section 2.142(d), as proposed, provides that the record in the application should be complete prior to the filing of an appeal, states that the TTAB will ordinarily not consider additional evidence filed with the TTAB by the appellant or by the examiner after an appeal is filed, and provides that either the appellant or the examiner may request the TTAB to suspend the appeal and remand the application for further examination if the appellant or the examiner desires to introduce additional evidence. The usual situations where additional evidence may be offered arise under 2(e) or 2(f) of the Trademark Act where the examiner desires to introduce more evidence to support a refusal of registration or the appellant desires to introduce more evidence in support of a claim of acquired distinctiveness (secondary meaning).

Section 2.142(e)(1), as proposed, amends existing §2.142 (c), and codifies the practice under the existing rule, by changing the due date for a request for an oral hearing on an appeal from the date when the appellant's brief is filed to a date ten days after the due date for a reply brief.

Section 2.142(e)(2), as proposed, requires the examiner to present an oral argument if an oral argument is requested by the appellant.

Section 2.142(e)(3), as proposed, ailots twenty minutes to the appellant for oral argument and ten minutes to the examiner for oral argument.

Section 2.142(f), as proposed, provides for situations, where, during an appeal, it appears to the TTAB that an issue not previously raised may render the mark of the appellant unregisterable, that is, when something on the face of the record on appeal indicates that a question concerning the registrability of the mark may exist but has not been considered. The proposed subsection provides the procedure to be followed by the TTAB, the examiner, and the appellant when the TTAB suspends an appeal and remands an application on the TTAB's own motion.

Section 2.146, as proposed, collects in one section the rules on petitions to the Commissioner in existing §§2.146, 2.147, and 2.148. For this reason it is proposed to delete §§2.147 and 2.148.

Section 2.142(a), as proposed, reflects the proposed change in §2.63(b) permitting petitions concerning some requirements which have been made final.

Section 2.146(b), as proposed, delineates classes of questions which are not considered to be appropriate subject matter for petitions to the Commissioner. These questions are substantive issues of registrability of marks and are considered to be appropriate for appeal to the TTAB.

Section 2.146(c), as proposed, specifies the contents of a petition to the Commissioner, and in this respect clarifies existing §2.146(b).

Section 2.146(d), as proposed, specifies the time limit for filing a petition on any matter except from a denial of a request for an extension of time to file an opposition, or from an interlocutory order of the TTAB, or from the refusal of an affidavit or declaration filed pursuant to §8 of the Trademark Act, or from the refusal of an application for the renewal of a registration filed under §9 of the Trademark Act.

Section 2.146(e), as proposed, provides time limits and specifies the procedure for a petition to the Commissioner from the denial of a request for an extension of time to file an opposition or from an interlocutory order of the TTAB. Proposed §2.146(e)(1) contains a new requirement that a petition from the denial of a request for an extension of time to oppose must be served on the applicant or his attorney and provides for a response by the applicant to the petition.

Section 2.146(f), as proposed, clarifies existing §2.146(c).

Section 2.146(g), as proposed, clarifies and codifies the practice under existing §2.146(d) and, in addition, makes §2.146 consistent with proposed §§2.63(b) and 2.65.

Section 2.146(h), as proposed, codifies the practice under existing §2.146(e) whereby authority to act on classes of petitions, in addition to any particular petition, has been delegated.

Section 2.145, as proposed, specifies the procedure when an affidavit or declaration filed under §8 of the Trademark Act is refused. The steps to be taken by the registrant to request reconsideration and to petition to the Commissioner and the time limits for such requests and petitions are stated.

Section 2.145(d), as proposed, states that a petition to the Commissioner for review of the action refusing the affidavit or declaration under the Trademark Act shall be a condition precedent to an appeal to or action for review by any court. This implements 21(a)(1) and (b)(1) of the Act, which provide, inter alia, that a registrant who has filed an affidavit under §8 of the Act who is dissatisfied with the decision of the Commissioner may appeal to the Court of Customs and Patent Appeals or may have remedy by a civil action.

Section 2.173(b), as proposed, clarifies the circumstances in which an amendment of the identification of goods or services of a registration is permitted. The proposed rule states that an identification of goods or services can be restricted or can be otherwise changed in ways that would not require republication of the mark.

Section 2.184, as proposed, specifies procedures and time limits for relief when an application for renewal of a registration under §9 of the Trademark Act is refused, in parallel with proposed §2.165.

Section 2.184(d), as proposed, is parallel to proposed § 2.165(d) and has the same statutory basis.

Section 2.186, as proposed, clarifies and codifies the practice under existing §2.186 that action with respect to an assigned application or registration may be taken by the assignee provided that the assignment has been recorded.

Environmental, energy, and other considerations: The proposed rule change will not have a significant impact on the quality of the human environment or the conservation of energy resources.

The proposed rule change will not have a significant adverse economic impact on a substantial number of small entities (Regulatory Flexibility Act. Pub. L. 96–354) for several reasons. The rule change includes no additional or increased fees. Substantive rights to use valuable trademarks are not adversely affected. In general, the rule change will expedite proceedings before the Patent and Trademark Office, changing existing proce-

dures only where then can be made more equitable or simpler.

The proposed rule change does not impose a record keeping or reporting burden under the Paperwork Reduction Act of 1980, 44 U.S.C. 3501 *et seq.* No additional information is required from the public. No additional records are required to be maintained by the Patent and Trademark Office because there are no additional fees or proceedings to monitor.

The Patent and Trademark Office has determined that this rule change is not a major rule under Executive Order 12291. The annual effect on the economy will be less than $100 million. There will be no major increase in costs or prices for consumers, individual industries. Federal, State, or local government agencies, or geographic regions. There will be no significant, adverse effects on competition, employment, investment, productivity, innovation, or on the ability of United States-based enterprises to compete with foreign-based enterprises in domestic or export markets.

PART 2—RULES OF PRACTICE IN TRADEMARK COVERS

1. Section 2.20 is proposed to be amended by designating the present section as subsection (a) and adding a new subsection (b) to read as follows:

§2.20 Declaration(s) in lieu of oath.

* * * * *

► (b) A notice of opposition or petition for cancellation signed on behalf of a corporation or an association by a person who is authorized to sign the document but who is not an officer may be accompanied by a declaration as provided in subsection (a).◄

2. Section 2.27 is proposed to be amended by revising subsections (b) and (d) and adding a subsection (e) to read as follows:

§2.27 Pending trademark application index; access to applications

* * * * *

(b) ► Except as provided in subsection (e), ◄ access to the file of a particular pending application will be permitted prior to publication under rule 2.80 upon written request.

* * * * *

(d) ► Except as provided in subsection (e), ◄ after a mark has been registered, or published for opposition, the file of the application and all proceedings relating thereto are available for public inspection and copies of the papers may be furnished upon paying the fee therefor.

► (e) Any documents, tangible things, answer to interrogatories, or all or part of any discovery or testimonial deposition transcripts ordered to be filed under seal pursuant to a protective order issued or made by any court or by the Trademark Trial and Appeal Board in any proceeding involving an application or a registration shall be kept confidential and shall not be made available for public inspection or copying unless otherwise ordered by the court or the Board, or unless the party protected by the order voluntarily discloses the matter subject thereto.◄

3. Section 2.63 is proposed to be revised to read as follows:

§2.63 ► Reexamination. ◄ [Reexamination]

► (a) ◄ After response by the applicant, the application will be ► reexamined ◄ [re-examined] or reconsidered ► If ◄ [, and if the] registration is again refused or ► any ◄ formal requirements[s] ► is repeated, ◄ [insisted upon.] but ► the examiner's action is ◄ not stated to be final ► , ◄ the applicant may respond again.

►(b) After reexamination the applicant may respond by filing a timely petition to the Commissioner for relief from a formal requirement if: (1) The formal requirement is repeated but the Examiner's action is not made final; or (2) the examiner's action is made final and the action is limited to subject matter appropriate for petitions to the Commissioner (see §2.146(b)). If the petition is denied, the applicant shall have until six months from the date of the Office action which repeated the requirement or made it final or thirty days from the date of the decision on the petition, whichever date is later, to comply with the requirement. A formal requirement which is the subject of a petition decided by the Commissioner may not subsequently be the subject of an appeal to the Trademark Trial and Appeal Board.◄

4. Subject 2.64 is proposed to be amended by amending the present section and designating it as subsection (a) and adding a new subsection (b) to read as follows:

§2.64 Final Action.

► (a) ◄ On the first or any subsequent reexamination or reconsideration the refusal of the registration or the insistence upon a requirement may be stated to be final, whereupon applicant's response is limited to an appeal ► , ◄ or to a compliance with any requirement ► , or to a petition to the Commissioner if permitted by §2.63(b) ◄ .

► (b) During the period between a final action and expiration of the time for filing an appeal, the applicant may request the examiner to reconsider the final action. The filing of a request for reconsideration will not extend the time for filing an appeal or petitioning the Commissioner, but the examiner will reply to every request for reconsideration. Amendments accompanying requests for reconsideration after final action will be entered if they place the application in condition for publication or in better form for appeal.◄

5. Section 2.65 is proposed to be amended by revising the existing rule and identifying it as subsection (a) and adding a subsection (b) to read as follows:

§2.65 Abandonment.

► (a) ◄ If an applicant fails to respond, or to respond completely, within six months after the date an action is mailed, the application shall be deemed to have been abandoned. ► A timely petition to the Commissioner pursuant to §2.63(b) is a response which avoids abandonment of an application.◄

► (b) When action by the applicant is a bona fide attempt to advance the examination of the application and is substantially a complete response to the examiner's action, but consideration of some matter or compliance with some requirement has been inadvertently omitted, opportunity to explain and supply the omission may be given before the question of abandonment is considered.◄

6. Section 2.72 is proposed to be revised to read as follows:

§2.72 Amendments to description or drawing of the mark.

Amendments to the description or drawing of the mark may be permitted only if warranted by the specimens (or facsimiles) as originally filed, or supported by additional specimens (or facsimiles) and a supplemental affidavit or declaration in accordance with rule 2.20 alleging that the mark shown in the amended drawing ► is in use ◄ [was in actual use prior to the filing date of the application]. Amendments may not be made if the ► character ◄ [nature] of the mark is ► materially altered ◄ [changed thereby].

7. Section 2.81 is proposed to be revised to read as follows:

§2.81 Allowance of application.

If no opposition is filed with the time permitted [(§§2.101 and 2.102),] or ► any opposition is ◄ [if filed and] dismissed, and if no interference is declared ► and no ◄ [, or] concurrent use proceeding ► is ◄ instituted, the application will be prepared for issuance of the certificate of registration as provided in §2.151.

§2.88 [Removed]

8. It is proposed to remove §2.88, Applications may be combined.

§2.94 [Removed]

9. It is proposed to remove §2.94, Interference motions.

§2.95 [Removed]

10. It is proposed to remove §2.95, Decision on motion to dissolve.

11. Section 2.96 is proposed to be revised to read as follows:

§2.96 Issue; burden of proof.

The issue in an interference between applications ► is normally priority of use, but the rights of the parties to registration may also be determined. The party whose application involved in the interference has the latest filing date is the junior party and has the burden of proof. When there are more than two parties in an interference, a party whose application involved in the interference has a filing date between the filing dates of the earliest involved application and the latest involved application is a junior party to every party whose involved application has an earlier filing date and has the burden of proof as against every party whose application has an earlier filing date. If any applications involved in an interference have the same filing date, the application with the latest date of execution will be deemed to have the latest filing date and that applicant will be the junior party. The issue in an interference between an application and a registration shall be the same, but in the event the final decision is adverse to the registrant, a registration to the applicant will not be authorized so long as the interfering registration remains on the register. ◄ [shall be the respective rights of the parties to registration. The issue in an interference between an application and a registration shall be the same, but in the event the final decision is adverse to the registrant, a registration to the applicant will not be authorized so long as the interfering registration remains on the register. The party whose applications or registration involved in the interference has the latest filing date (the junior party) will be regarded as having the burden of proof.]

§2.97 [Removed]

12. it is proposed to remove Section 2.97, Enlargement of issue.

13. Section 2.98 is proposed to be revised to read as follows:

§2.98 Adding party to interference.

► A party may be added to an interference only upon petition to the Commissioner by that party. ◄ [If, during the pendency of an interference, another case appears involving substantially the same registrable subject matter, the Examiner of Trademarks may request the suspension of the interference for the purpose of adding said case. Such suspension will be granted as a matter of course if no testimony has been taken. If any testimony has been taken or is about to be taken, the case will not be added except upon approval of a member of the Trademark Trial and Appeal Board.] If ► an application which is or might be the subject of a petition for addition to an interference ◄ [the case] is not added, the ► examiner ◄ [Examiner of Trademarks] may suspend action on ► the application ◄ [such case] pending termination of the interference proceeding.

14. Section 2.99 is proposed to be revised to read as follows:

§2.99 Application to register as concurrent user.

(a) An application for registration as a lawful concurrent user will be examined in the same manner as other applications for registration. ► The examiner may require an applicant for registration as a concurrent user to make a prima facie showing that the applicant is entitled to a concurrent use registration. ◄ [When it is determined that the mark is ready for publication or allowance, except for questions relating to concurrent registration, the applicant may be required to furnish as many copies of his written application, specimens and drawing, as may be necessary. The Examiner of Trademarks shall prepare notices for the applicant and for each applicant, registrant, or user specified in the application for registration as a concurrent user. Such notices for the specified parties shall give the names and address of the applicant and of his attorney or other authorized representative, if any, together with the serial number and filing date of the application.]

(b) ► When it is determined that the mark is ready for publication, the applicant may be required to furnish as many copies of his application, specimens and drawing as may be necessary for the preparation of notices for each applicant, registrant or user specified as a concurrent user in the application for registration. ◄ [The notices shall be sent to each of the parties, in care of their attorneys or other representatives, if they have attorneys or other representatives of record, and if one of the parties is a registrant, a notice shall also be sent to him or his assignee of record. A copy of the application shall be forwarded with the notices to the parties specified in the application. An answer to the notice is not required in the case of an applicant or registrant whose application or registration is specified in the application to register as concurrent user but a statement, if desired, may be filed within forty days after the mailing of the notice; in the case of other parties specified in the application to register as concurrent user, answer must be filed within forty days after the mailing of the notice.]

(c) ► Upon receipt of the required by subsection (b), the examiner shall forward the application for concurrent use registration for publication in the Official Gazette as provided by §2.80. If no opposition is filed, or if any opposition that is filed is dismissed or withdrawn, the Trademark Trial and Appeal Board shall prepare a notice for the applicant for concurrent use registration and for each applicant, registrant or user specified as a concurrent user in the application. The notices for the specified parties shall state the name and address of the applicant and of the applicant's attorney or other authorized representative, if any, together with the serial number and filing date of the application. ◄ [The procedure shall follow the practice in interference proceedings insofar as it is applicable and the time limitations prescribed in such practice shall be applicable herein.]

(d) ► (1) The notices shall be sent to each applicant, in care of his attorney or other authorized representative, if any, to each user, and to each registrant. A copy

of the application shall be forwarded with the notice to each party specified in the application.

(2) An answer to the notice is not required in the case of an applicant or registrant whose application or registration is specified as a concurrent user in the application, but a statement, if desired, may be filed within forty days after the mailing of the notice; in the case of any other party specified as a concurrent user in the application, an answer must be filed within forty days after the mailing of the notice.

(3) If an answer, when required, is not filed, judgment will be entered precluding the specified user from claiming any right more extensive than that acknowledged in the application(s) for concurrent use registration, but the applicant(s) will remain with the burden of proving entitlement to registration(s). ◄ [When concurrent registration is sought on the basis of a court determination of the rights of the parties to use the marks in commerce, the application shall be examined by the Examiner of Trademarks. If the applicant is entitled to registration subject only to the concurrent lawful use of a party to the court proceeding, the Examiner of Trademark may publish or allow the application, provided the court decree specifies the rights of the parties.]

► (e) The applicant for a concurrent use registration has the burden of proving entitlement thereto. If there are two or more applications for concurrent use registration involved in a proceeding, the party whose application has the latest filing date is the junior party. A party whose application has a filing date between the filing dates of the earliest involved application and the latest involved application is a junior party to every party whose involved application has an earlier filing date. If any applications have the same filing date, the application with the latest date of execution will be deemed to have the latest filing date and that applicant will be the junior party. A person specified as an excepted user in a concurrent use application but who has not filed an application shall be considered a party senior to every party that has an application involved in the proceeding. ◄

► (f) When a concurrent use registration is sought on the basis of a court's determination of the rights of the parties to use the marks in commerce, a concurrent use registration proceeding will not be instituted if all of the following conditions are fulfilled:

(1) The applicant is entitled to registration subject only to the concurrent lawful use of a party to the court proceeding; and

(2) The court decree specifies the rights of the parties; and

(3) A true copy of the court decree is submitted to the examiner; and

(4) The concurrent use application complies fully and exactly with the court decree; and

(5) The excepted use specified in the concurrent use application does not involve a registration.

If any of the conditions specified in this subsection is not satisfied, a concurrent use registration proceeding shall be prepared and instituted as provided in subsections (a) through (e).◄

► (g) Registrations and applications to register on the Supplemental Register and registrations under the Act of 1920 are not subject to concurrent use registration proceedings.◄

15. Section 2.101 is proposed to be revised to read as follows:

§2.101 ► Extension of time for filing ◄ [Filing] an opposition.

(a) Any person who believes that he would be damaged by the registration of a mark ► on ◄ [upon] the Principal Register may ► file a written request to extend the time for filing an opposition. The written request may be signed by the potential opposer or by an attorney at law or other person authorized to represent a party. ◄ [oppose the same by filing an opposition in the Patent and Trademark Office within thirty days after publication of the mark sought to be registered (§2.80), or within an extension of the time for filing an opposition (§2.102). The opposition must be verified, or include a declaration in accordance with §2.20, unless the opposition as filed by an attorney at law or other authorized representative in accordance with §2.108.]

(b) ► The written request to extend the time for filing an opposition must identify the potential opposer with reasonable certainty. Any opposition filed during an extension of time should be in the name of the person to whom the extension was granted, but an opposition may be accepted if the person in whose name the extension was requested was misidentified through mistake or if the opposition is filed in the name of a person in privity with the person who requested and was granted the extension of time. ◄ [An opposition must include the required fee for each class sought to be opposed in the application. If fees insufficient to cover all classes in the application are submitted, the particular class or classes in which opposition is sought should be specified. If persons are joined in an opposition, a fee for each class sought to be opposed in the application for each person so joined is required.]

(c) ► A written request to extend the time for filing an opposition must be filed in the Patent and Trademark Office before the expiration of thirty days from the date of publication or within any extension of time previously granted under this section, should specify the period of extension desired, and should be addressed to the Trademark Trial and Appeal Board. A first extension of time for not more than thirty days will be granted upon request. Further extensions of time may be granted by the Board for good cause. Extensions of time to file an opposition aggregating more than 120 days from the date of publication of the application will not be granted except upon written stipulation signed by the applicant and the potential opposer, or their authorized representatives, or upon a showing of extraordinary circumstances. ◄ [If no fee, or a fee insufficient to cover at least one class, is filed within 30 days after publication of the mark to be opposed or within an extension of the time for filing an opposition, the opposition will not be refused if the required fee(s) and service charge (see §2.6(g)) are filed in the Patent and Trademark Office within the time limit set forth in the notification of this defect by the Office. In situations covered by this paragraph, §2.85(e) may not be utilized.]

► (d) Every request to extend the time for filing a notice of opposition should be submitted in triplicate (original plus two copies).◄

16. Section 2.102 is proposed to be revised to read as follows:

§2.102 ► Filing an ◄ [Extension of time for filing] opposition.

(a) ► An opposition proceeding is commenced by the filing of a notice of opposition in the Patent and Trademark Office. ◄ [A request to extend the time for filing an opposition must be made by a person who believes that he would be damaged by the registration of the mark on the Principal Register, but an attorney at law or other person authorized to represent a party may file the request on behalf of a potential opposer. The potential opposer must be identified with reasonable certainty in the request. Any opposition filed during an extension of time should be in the name of the person to whom the extension was granted, but an opposition may be accepted if the person to whom the extension was granted was misidentified through mistake, or an opposition filed in a different name may be accepted if the person filing the opposition is in privity with the person to whom the extension was granted.]

(b) ► Any person who believes that he would be damaged by the registration of a mark on the Principal Register may oppose the same by filing a notice of opposition, which should be addressed to the Trademark Trial and Appeal Board. ◄ [A written request to extend the time for filing an opposition must be received in the Patent and Trademark Office before the expiration of

thirty days from the date of publication, and should specify the period of extension desired. A first extension of time will be granted upon request if the extension is for not more than thirty days. Other extensions of time may be granted by the Commissioner for good cause.]

► (c) The notice of opposition must be filed within thirty days after publication (§2.80) of the application being opposed or within an extension of time (§2.101) for filing an opposition.◄

► (d) The notice of opposition must be verified by oath or affirmation or by a declaration in accordance with §2.20◄

► (e)(1) The notice of opposition must be accompanied by the required fee for each class in the application for which registration is opposed (see §2.85(e)). If the fees submitted are insufficient for an opposition against all of the classes in the application, the particular class or classes against which the opposition is filed should be specified. If the class or classes are not specified, the opposition will be presumed to be against the class or classes in ascending order, beginning with the class having the lowest number, and including the number of classes in the application for which the fees submitted are sufficient to pay the fee due for each class.

(2) If persons are joined as party opposers, a fee is required for each person for each class for which registration is opposed. If the fees submitted are insufficient for each named party opposer, the first named party will be presumed to be the party opposer and additional parties will be deemed to be party opposers to the extent that the fees submitted are sufficient to pay the fee due for each party opposer. If persons are joined as parties opposer against the registration of a mark in more than one class and the fees submitted are insufficient, the fees submitted will be applied first on behalf of the first named opposer against as many of the classes in the application as the submitted fees are sufficient to pay, and any excess will be applied on behalf of the second named party to the opposition against the classes in the application in ascending order. The payment of fees for parties opposer in excess of one may be made as though they are the payment of fees for additional classes in accordance with §2.85(e) subject to the exception that §2.85(e) may not be utilized after a service charge is paid pursuant to §2.6(g).◄

► (f) If no fee, or a fee insufficent to pay for one person to oppose the registration of a mark in at least one class, is submitted within thirty days after publication of the mark to be opposed or within an extension of time for filing an opposition, the opposition will not be refused if the required fee(s) and service charge (see §2.6 (g)) are submitted to the Patent and Trademark Office within the time limit set in the notification of this defect by the Office. In situations covered by this subsection, §2.85(e) may not be utilized. Only one service charge need be paid by each party opposer regardless of the number of classes for which registration is opposed.◄

17. Section 2.103 is proposed to be revised to read as follows:

§2.103 Opposition filed by attorney at law or other authorized representative.

► A notice of ◄ [An] opposition may be filed in the Patent and Trademark Office by an attorney at law or other person authorized to represent a party, either within thirty days after publication of the mark sought to be registered (§2.80) [,] or within an extension of the time for filing an opposition [§ ► 2.101 ◄ [2.102]), but the opposition will be null and void unless ► verified ◄ [confirmed] by the opposer by ► oath or affirmation ◄ [verification,] or by ► a ◄ declaration in accordance with §2.20 [,] within thirty days after the filing of the ► notice of ◄ opposition [,] or within such further time as may be fixed by the Commissioner upon request made before the expiration of the thirty days.

18. Section 2.104 is proposed to be revised to read as follows:

§2.104 Contents of ► notice of ◄ opposition.

The ► notice of ◄ opposition must set forth a short and plain statement showing how the opposer would be damaged by the registration of the opposed mark and state the grounds for opposition. A duplicate copy of the ► notice of ◄ opposition, including exhibits ► ,◄ shall be filed ► with the notice of opposition ◄ .

19. Section 2.105 is proposed to be revised to read as follows:

§2.105 Notification of opposition proceeding[s].

► When a notice of opposition in proper form has been filed and the correct fee(s) (and service charge(s), if any) have been submitted, a notification shall be prepared by the Trademark Trial and Appeal Board, which shall identify the title and number of the proceeding and the application involved and shall designate a time, not less than thirty days from the mailing date of the notification, within which an answer must be filed. A copy of the notification shall be forwarded to the attorney or other authorized representative of the opposer, if any, or to the opposer. The duplicate copy of the notice of opposition and exhibits shall be forwarded with a copy of the notification to the attorney or other authorized representative of the applicant, if any, or to the applicant. ◄ [A notification of an opposition which has been regularly filed shall be prepared, identifying the title and number of the proceeding and the application involved, and designating a time, not less than thirty days from the mailing date of such notification, within which answer must be filed. Copies of this notification shall be forwarded by the Trademark Trial and Appeal Board to the parties in care of their attorney or other representatives, if they have attorneys or other representatives of record. The duplicate copy of the opposition and exhibits shall be forwarded with the notification to the applicant.]

20. Section 2.106 is proposed to be amended by revising paragraph (c) to read as follows:

§2.106 Answer.

* * * * *

(c) The opposition may be withdrawn without prejudice before the answer is filed. After the answer is filed ► , ◄ the opposition may not be withdrawn without prejudice except with the ► written ◄ consent of the applicant.

21. Section 2.107 is proposed to be revised to read as follows:

§2.107 Amendment of ► pleadings in an ◄ opposition ► proceeding ◄ .

► Pleadings in an ◄ [An] opposition ► proceeding ◄ may be amended in the same manner and to the same extent as [a complaint] in a civil action ► in ◄ [before] a United States district court. [See Rule 15 of the Federal Rules of Civil Procedure.]

22. Section 2.111 is proposed to be revised to read as follows:

§2.111 ► Filing ◄ [Time for filing] petition for cancellation.

► (a) A cancellation proceeding is commenced by the filing of a petition for cancellation, together with at least the fee for petitioning to cancel one class, in the Patent and Trademark Office. ◄ [Any person who believes that he is or will be damaged by a registration may, upon payment of the required fee for each class sought to be cancelled in the registration, apply to the Commissioner to cancel said registration as to the specified class or classes. A petition to cancel which includes insufficient fees to cover all classes in the registration should specify the particular class or classes or which cancellation is sought. Such petition may be made at any time in the case of registrations on the Supplemental Register or under the Act of 1920, or registrations under

the Act of 1881 or the Act of 1905 which have not been published under section 12(c) of the Act (§2.153), and in cases involving the grounds specified in section 14(c), (d) and (e) of the Act. In all other cases such petition must be made within five years from the date of registration of the mark under the Act of 1946 or from the date of publication under section 12(c) of the Act.]

► (b) Any person who believes that he is or will be damaged by a registration may file a petition, which should be addressed to the Trademark Trial and Appeal Board, to cancel the registration in its entirety or for each class in the registration specified in the petition. The petition may be filed at any time in the case of registrations on the Supplemental Register or under the Act of 1920, or registrations under the Act of 1881 or the Act of 1905 which have not been published under §12(c) of the Trademark Act of 1946, or on any ground specified in §14(c) or (e) of the Trademark Act of 1946. In all other cases the petition must be filed within five years from the date of registration of the mark under the Trademark Act of 1946 or from the date of publication under 12(c) of the Trademark Act of 1946.◄

► (c) The petition must be verified by oath or affirmation or by declaration in accordance with §2.20.◄

► (d)(1) The petition must be accompanied by the required fee for each class in the registration for which cancellation is sought (see §2.85(e)). If the fees submitted are insufficient for a cancellation against all of the classes in the registration, the particular class or classes against which the cancellation is filed should be specified. If the class or classes are not specified, the cancellation will be presumed to be against the class or classes in ascending order, beginning with the lowest numbered class, and including the number of classes in the registration for which the fees submitted are sufficient to pay the fee due for each class.

((2) If persons are joined as party petitioners, each must submit a fee for each class for which cancellation is sought. If the fees submitted are insufficient for each named party petitioner, the first named party will be presumed to be the party petitioner and additional parties will be deemed to be party petitioners to the extent that the fees submitted are sufficient to pay the fee due for each party petitioner. If persons are joined as party petitioners against a registration sought to be cancelled in more than one class and the fees submitted are insufficient, the fees submitted will be applied first on behalf of the first-named petitioner against as many of the classes in the registration as the submitted fees are sufficient to pay, and any excess will be applied on behalf of the second-named party to the petition against the classes in the registration in ascending order. The payment of fees for additional party petitioners may be made as though they are the payment of additional fees for additional classes in accordance with §2.85(e).◄

23. Section 2.112 is proposed to be revised to read as follows:

§2.112 ► Contents of petition ◄ [Petition] for cancellation.

► (a) ◄ The petition to cancel [which must be verified, or include a declaration in accordance with §2.20], must set forth a short and plain statement showing how the petitioner is or will be damaged by the registration, state the grounds for cancellation, and indicate the respondent party to whom notification shall be sent. A duplicate copy of the petition, including exhibits, shall be filed with the petition. [Applications to cancel different registrations owned by the same party may be joined in one petition when appropriate, but the required fee must be included for each class sought to be cancelled in each registration against which each application to cancel is filed. If persons are joined in a petition to cancel, a fee for each class sought to be cancelled for each person so joined is required.]

► (b) Petitions to cancel different registrations owned by the same party may be joined in a consolidated petition when appropriate, but the required fee must be included for each party joined as petitioner for each class sought to be cancelled in each registration against which the petition to cancel is filed.◄

24. Section 2.113 is proposed to be revised to read as follows:

§2.113 Notification of ► cancellation proceeding ◄ [filing of petition].

[(a)] When a petition for cancellation ► has been filed in proper form and the correct fees(s) have been submitted, a notification shall be prepared by the Trademark Trial and Appeal Board, which shall identify the title and number of the proceeding and the registration or registrations involved and shall designate a time, not less than thirty days from the mailing date of the notification, within which an answer must be filed. A copy of the notification shall be forwarded to the attorney or other authorized representative of the petitioner, if any, or to the petitioner. The duplicate copy of the petition for cancellation and exhibits shall be forwarded with a copy of the notification to the respondent.◄ [is filed, it shall be transmitted to the Trademark Trial and Appeal Board, which shall make examination thereof to determine if it is formally correct.] If the petition is found to be defective as to form, the party filing the ► petition ◄ [same] shall be so advised and allowed a reasonable time for correcting the informality.

[(b) When the petition is correct as to form, a notification shall be prepared, identifying the title and number of the proceeding and the registration involved, and designating a time, not less than thirty days from the mailing date of such notification, within which answer must be filed. A copy of this notification shall be forwarded to the petitioner in care of his attorney or other representative, if he has an attorney or other representative of record. The duplicate copy of the petition and exhibits shall be forwared with a copy of such notification to the respondent party.]

25. Section 2.115 is proposed to be revised to read as follows:

§2.115 Amendment of ► pleadings in a ◄ [petition for] cancellation ► proceeding ◄ .

► Pleadings in a ◄ [A petition for] cancellation ► proceeding ◄ may be amended in the same manner and to the same extent as [a complaint] in a civil action ► in ◄ [before] a United States district court. [See Rule 15 of the Federal Rules of Civil Procedure.]

26. Section 2.116 is proposed to be amended by revising paragraphs (b) and (c) to read as follows:

§2.116 [Federal] Rules of [Civil] Procedure.

* * * * *

(b) ► The opposer in an opposition proceeding or the petitioner in a cancellation proceeding shall be in the position of plaintiff, and the applicant in an opposition proceeding or the respondent in a cancellation proceeding shall be in the position of defendant. A party that is a junior party in an interference proceeding or in a concurrent use registration proceeding shall be in the position of plaintiff against every party that is senior, and the party that is a senior party in an interference proceeding or in a concurrent use registration proceeding shall be a defendant against every party that is junior. ◄ [The party having the latest filing date in an interference, the opposer in an opposition proceeding, the petitioner in a cancellation proceeding, and the applicant to register as a concurrent lawful user (or such applicant having the latest filing date), shall be deemed to be in the position of plaintiff, and the other parties to such proceedings shall be deemed to be in the position of defendants.]

(c) The ► notice of ◄ opposition ► or ◄ [and] the petition ► for cancellation ◄ [to cancel,]and the ► answer ◄ [answer thereto] correspond to ► the ◄ complaint and answer in ► a ◄ court proceeding[s]. [Such pleadings as may be filed in interference and ooncurrent

registration proceedings will be treated as complaints or affirmative defenses, depending upon the party filing, but the filing of a pleading in such proceedings shall not operate to change the position of the parties as set forth in the preceding paragraph.]

* * * * *

27. Section 2.117 is proposed to be amended by designating the present section as subsection (a) and adding new subsections (b), (c) and (d), to read as follows:

§2.117 Suspension of proceedings.

* * * * *

► (b) Issue must be joined in the civil action and in the proceeding pending before the Trademark Trial and Appeal Board before the question of suspension of proceedings will be considered. ◄

► (c) Whenever there is pending, at the time when the question of the suspension of proceedings is raised, a motion which is potentially dispositive of the case, the motion will be decided before the question of suspension will be considered. ◄

► (d) Proceedings may also be suspended, for good cause, upon motion or a stipulation of the parties approved by the Board. ◄

28. Section 2.120 is proposed to be revised to read as follows:

§2.120 Discovery [procedure].

► (a) *In general.* ◄ The provisions of the Federal Rules of Civil Procedure relating to discovery shall apply in ► opposition, cancellation, interference and concurrent use registration proceedings ◄ [in inter partes trademark cases] except as otherwise provided in this section. The Trademark Trial and Appeal Board will specify the closing date for the taking of discovery.

► (b) *Discovery deposition within the United States.* ◄ [(a) *Depositions for discovery—(1) Procedure.*] The deposition of a ► natural ◄ person shall be taken in the Federal judicial district where ► the person ◄ [he] resides or is regularly employed ► or at any place on which the parties agree by stipulation ◄ . The responsibility ► rest wholly with the party taking discovery to secure ◄ [for securing] the attendence of a proposed deponent [,] other than a party or anyone who ► , ◄ at the time set for the taking of the deposition ► , is ◄ [was] an officer, director, or managing agent of a party, or a person designated under Rule 30(b)(6) of Rule 31(a) of the Federal Rules of Civil Procedure ► . ◄ [to testify on behalf of a party, rests wholly with the interested party] See 35 U.S.C. 24.

► (c) ◄ (2) *Discovery* ► *disposition* ◄ *in foreign countries.* ► (1) ◄ The discovery deposition of a ► natural person residing in a foreign country who is a ◄ party or ► who, at the time set for the taking of the deposition is ◄ an officer, director, or managing agent of a party, or a person designated under Rule 30(b)(6) or ► Rule ◄ 31(a) of the Federal Rules of ► Civil ◄ Procedure ► , shall if taken in a foreign country, ◄ [to testify on behalf of a party, domiciled in a foreign country may] be taken in the manner prescribed by §2.124 [.]

► unless the Trademark Trial and Appeal Board, upon motion for good cause, orders or the parties stipulate, that the deposition be taken by oral examination.

(2) Whenever a foreign party is or will be, during a time set for discovery, present within the United States or any territory which is under the control and jurisdiction of the United States, such party may be deposed by oral examination upon notice by the party seeking discovery. Whenever a foreign party has or will have, during a time set for discovery, an officer, director, managing agent, or other person who consents to testify on its behalf, present within the United States or any territory which is under the control and jurisdiction of the United States, such officer, director, managing agent, or other person who consents to testify in its behalf may be deposed by oral examination upon notice by the party seeking discovery. The party seeking discovery may have one or more officers, directors, managing agents or other persons who consent to testify on behalf of the adverse party, designated under Rule 39(b)(6) of the Federal Rules of Civil Procedure. The deposition of a person under this paragraph shall be taken in the Federal judicial district where the witness resides or is regularly employed, or, if the witness neither resides nor is regularly employed in a Federal judicial district, where the witness is at the time of the deposition. This paragraph does not preclude the taking of a discovery deposition of a foreign party by any other procedure provided by paragraph (1). ◄ [(3) *Use of discovery depositions.* A discovery deposition shall not be considered as part of the record in the case unless the party offering the deposition, or any part thereof, files the same before the close of his testimony period (testimony-in-chief or rebuttal as appropriate) and also files a notice of reliance thereon. A discovery deposition should not be filed in the Patent and Trademark Office in the absence of a notice of reliance. Objections, including any made during the examination, will be considered only if made or renewed at the hearing.]

► (d) *Request for production.* The production of documents and things under the provisions of Rule 34 of the Federal Rules of Civil Procedure will be made at the place where the documents and things are usually kept, or where the parties agree, or where and in the manner which the Trademark Trial and Appeal Board, upon motion, orders. ◄ [(b) *Use of admission or answer to interrogatory.* No admission or answer to an interrogatory shall be considered as part of the record in the case unless the party propounding the request for admission or interrogatory files, before the close of his testimony period (testimony-in-chief or rebuttal, as appropriate), a copy of the admission and the request therefor and/or a copy of the interrogatory and its answer and also files a notice of reliance thereon.]

► (e) *Motion for an order to compel discovery.* If a party fails to designate a person pursuant to Rule 30(b)(6) or Rule 31(a) of the Federal Rules of Civil Procedure, or if a party, or such designated person, or an officer, director or managing agent of a party fails to attend a deposition or fails to answer any question propounded in a discovery deposition, or any interrogatory, or fails to produce and permit the inspection and copying of any document or thing, the party seeking discovery may file a motion before the Trademark Trial and Appeal Board for an order to compel a designation, or attendance at a deposition, or an answer, or production and an opportunity to inspect and copy. The motion shall include a copy of the request for designation or of the relevant portion of the discovery deposition; or a copy of the interrogatory with any answer or objection that was made; or a copy of the request for production, any proffer of production or objection to production in response to the request, and a list and brief description of the documents or things that were not produced for inspection and copying. The motion must be supported by a written statement from the moving party that such party or the attorney therefor has made a good faith effort, by conference or correspondence, to resolve with the other party or the attorney therefor the issues presented in the motion and has been unable to reach agreement. If issues raised in the motion are subsequently resolved by agreement of the parties, the moving party should inform the Board in writing of the issues in the motion which no longer require adjudication. ◄ [(c) *Failure to make discovery: Sanctions.* (1) If any party fails or refuses to answer any proper question in taking discovery depositions or fails or refuses to answer any proper question propounded by interrogatories or fails or refuses to comply with a request to produce and permit the inspection and copying of designated things, the party seeking discovery may file a motion with the Trademark Trial and Appeal Board for an order compelling discovery. Such a motion must be supported by a written statement by the attorney for the moving party that the moving party or its attorney has conferred with the opposing party or

its attorney in an effort in good faith to resolve by agreement the issues raised by the motion and has been unable to reach agreement. If issues raised by the motion are subsequently resolved between the parties, the attorney for the moving party should advise the Trademark Trial and Appeal Board in writing of the matters in the motion which no longer require decision by the Board.

(2) If a party or an officer, director, or managing agent of a party, or a person designated under Rule 30(b)(6) or 31(a) of the Federal Rules of Civil Procedure to testify on behalf of a party, fails to obey an order to provide or permit discovery, the Trademark Trial and Appeal Board may strike out all or any part of any pleading of that party, dismiss the action or proceeding, or deny any part thereof, enter judgment as by default against that party or take any such other action as may be deemed appropriate.]

► (f) *Motion for a protective order.* Upon motion by a party from whom discovery is sought, and for good cause, the Trademark Trial and Appeal Board may make any order which justice requires to protect a party from annoyance, embarrassment, oppression, or undue burden or expense, including one or more of the types of orders provided by clauses (1) through (8), inclusive of Rule 26(c) of the Federal Rules of Civil Procedure. If the motion for a protective order is denied in whole or in part, the Board may, on such conditions (other than an award of expenses to the party prevailing on the motion) as are just, order that any party provide or permit discovery.◄

►(g) *Failure to comply with order.* If a party fails to comply with an order of the Trademark Trial and Appeal Board relating to discovery, including a protective order, the Board may make any appropriate order, including any of the orders provided in Rule 37(b)(2) of the Federal Rules of Civil Procedure, except that the Board does not have authority to hold any person in contempt or to award any expenses to any party. The Board may impose against a party any of the sanctions provided by this subsection in the event that said party or any attorney agent, or designated witness of that party fails to comply with a protective order made pursuant to Rule 26(c) of the Federal Rules of Civil Procedure.◄

► (h) *Request for admissions.* Requests for admissions shall be governed by Rule 36 of the Federal Rules of Civil Procedure except that the Trademark Trial and Appeal Board does not have authority to award any expenses to any party. A motion by a party to determine the sufficiency of an answer or objection to a request made by that party for an admission shall include a copy of the request for admission and any exhibits thereto and of the answer or objection. The motion must be supported by a written statement from the moving party that such party or the attorney therefor has made a good faith effort, by conference or correspondence, to resolve with the other party or the attorney therefor the issues presented in the motion and has been unable to reach agreement. If issues raised in the motion are subsequently resolved by agreement of the parties, the moving party should inform the Board in writing of the issues in the motion which no longer require adjudication.◄

► (i) *Pre-trial conference.* Whenever it appears to the Trademark Trial and Appeal Board that questions or issues arising during the interlocutory phase of an inter partes proceeding have become so complex that their resolution by correspondence or telephone conference is not practical and that resolution would be likely to be facilitated by a conference in person of the parties or their attorneys with a Member or Attorney-Examiner of the Board, the Board may at its discretion request that the parties or their attorneys, under circumstances which will not result in undue hardship for any party, meet with the Board at its offices for a pre-trial conference.◄

► (j) *Use of discovery deposition, admission, or answer to interrogatory.* (1) A party who took a discovery deposition, or who obtained an answer to an interrogatory, or who obtained an admission, may make the same of record in the case by filing the deposition or any part thereof with any exhibit identified in the part that is filed, or a copy of the interrogatory and the answer thereto with any exhibit made part of the answer, or a copy of the request for admission and any exhibit thereto and the admission (or a statement that the party from whom an admission was requested failed to respond thereto), together with a notice of reliance. The notice of reliance and the material submitted thereunder shall be filed during the testimony period of the party who files the notice of reliance. An objection made at a discovery deposition by a party answering a question subject to the objection will be considered at final hearing.

(2) A discovery deposition or part thereof, or an answer to an interrogatory, or an admission, may be submitted and made part of the record by only the inquiring party except that, if only part of a discovery deposition, or fewer than all of the answers to interrogatories, or fewer than all of the admissions, are offered in evidence by the inquiring party, the responding party may introduce under a notice of reliance any other part of the discovery deposition, or any other answers to interrogatories, or any other admissions, which should in fairness be considered so as to make not misleading what was offered by the inquiring party.

(3) A deposition, taken during the discovery period, of a person who is not a party, or an officer, director or managing agent of a party, or a person designated by a party pursuant to Rule 30(b)(6) or Rule 31(a) of the Federal Rules of Civil Procedure, shall not be offered in evidence except when the person whose discovery deposition was taken is, during the testimony period of the party offering the deposition: dead; or out of the United States (unless it appears that the absence of the witness was procured by the party offering the deposition); or unable to testify because of age, illness, infirmity, or imprisonment; or cannot be served with a subpoena to compel attendance at a testimonial deposition; or there is a stipulation by the parties; or upon a showing of extraordinary circumstances and necessity in the interest of justice. The use of a discovery deposition under this paragraph will be allowed only by order of the Trademark Trial and Appear Board on motion, which shall be filed promptly after the circumstances claimed to justify use of the deposition become known, or by stipulation of the parties approved by the Board.

(4) Subsection (1) will not be interpreted to preclude the reading or the use of a discovery deposition, or answer to an interrogatory, or admission as part of the examination or cross-examination of any witness during the testimony period of any party.

(5) Interrogatories, requests for production, requests for admissions, and materials or depositions obtained during the discovery period should not be filed with the Board except when submitted with a motion to compel discovery, or in support of or response to a motion for summary judgment, or under a notice of reliance during a party's testimony period.◄

29. Section 2.171 is proposed to be revised to read as follows:

§2.121 Assignment of times for taking testimony.

(a) ► (1) The Trademark Trial and Appeal Board will issue a trial order assigning to each party the time for taking testimony. No ◄ [Times will be assigned for the taking of testimony in behalf of each of the parties, and no] testimony shall be taken except during the time assigned ►, unless by stipulation of the parties approved by the Board or, upon motion, by order of the Board. Testimony periods may be rescheduled by stipulation of the parties approved by the Board or, upon motion, by order of the Board. The resetting of the closing date for discovery will result in the rescheduling of the testimony periods without action by any party.

(2) The initial trial order will be mailed by the Board after issue is joined.◄ [If there be no more than two parties to an interference, the times for taking testimony will be so arranged that each shall have an opportunity to prove his case against prior parties, to rebut their evidence, and to meet the evidence of junior parties.]

(b) ► (1) The Trademark Trial and Appeal will schedule a testimony period for the plaintiff to present its case in chief, a testimony period for the defendant to present its case and to meet the case of the plaintiff, and a testimony period for the plaintiff, and testimony period for the plaintiff to present evidence in rebuttal.

(2) When there is a counterclaim, or when proceedings have been consolidated and one party is in the position of plaintiff in one of the involved proceedings and in the position of defendant in another of the involved proceedings, or when there is an interference or a concurrent use registration proceeding involving more than two parties, the Board will schedule testimony periods so that each party in the position of plaintiff will have a period for presenting its case in chief against each party in the position of defendant, each party in the position of defendant will have a period for presenting its case and meeting the case of each plaintiff, and each party in the position of plaintiff will have a period for representing evidence in rebuttal. ◄ [The times will ordinarily be assigned in the notices sent by the Patent and Trademark Office in interferences and in concurrent use proceedings, and in a notice sent after the answers have been filed in cases of opposition and cancellation.]

► (c) A testimony period which is solely for rebuttal will be set for thirty days. The periods may be extended by stipulation of the parties, approved by the Trademark Trial and Appeal Board, or, upon motion, by order of the Board. ◄

► (d) When parties stipulate to the rescheduling of testimony periods or to the rescheduling of the closing date for discovery and the rescheduling of testimony periods, a stipulation presented in the form used in a trial order, signed by the parties, or a motion in said form signed by one party and including a statement that every other party has agreed thereto, and submitted in one original plus as many photocopies as there are parties, will, if approved, be so stamped, signed, and dated, and the copies will be promptly returned to the parties. ◄

30. Section 2.122 is proposed to be revised to read as follows:

§2.122 Matters in evidence.

(a) ► The rules of evidence for proceedings before the Trademark Trial and Appeal Board are the Federal Rules of Evidence, the relevant provisions of the Federal Rules of Civil Procedure, the relevant provisions of Title 28 of the United States Code, and the provisions of this Part of Title 37 of the Code of Federal Regulations. ◄ [The files of the applications or registrations specified in the declaration of interference or in the notice in case of concurrent registration proceedings, of the application against which an opposition is filed, and of the registration against which a petition for cancellation or an affirmative defense requesting]

► (b)(1) The file of each application specified in a declaration of interference, of each application or registration specified in the notice of a concurrent use registration proceeding, of the application against which a notice of opposition is filed, or of each registration against which a petition or counterclaim for ◄ cancellation is filed [,] ► forms ◄ [form] part of the record of the proceeding without any action by the parties ► and reference may be made to the file ◄ [, and may be referred to] for any relevant and competent purpose.

► (2) The allegation in an application for registration, or in a registration, of a date of use is not evidence on behalf of the applicant or registrant; a date of use of a mark must be established by evidence. Specimens in the file of an application for registration, or in the file of a registration, are not evidence on behalf of the applicant or registrant unless identified and introduced in evidence as are other exhibits during the period for the taking of testimony.

(3) An exhibit attached to a pleading is not evidence on behalf of the party to whose pleading the exhibit is attached unless identified and introduced in evidence as are other exhibits during the period for the taking of testimony. ◄ [(b) A registration of the opposer or petitioner pleaded in an opposition or petition to cancel will be received in evidence and made part of the record if two copies showing status and title of the printed registration or an order for such copies accompany the opposition or petition.]

(c) ► (1) ◄ Printed publications, such as books and periodicals, available to the general public in libraries or of general circulation ► among members of the public or that segment of the public which is relevant under an issue in a proceeding ◄ , and official records, if ► the publication or official record is ◄ competent evidence and ► relevant ◄ [pertinent] to ► an ◄ [the] issue, may be introduced in evidence by filing [in the Patent and Trademark Office] a notice ► of reliance on the material being offered, which notice shall specify the printed publication or the official record and the pages to be read, indicate generally the relevance of the material being offered, and be accompanied by the official record or a copy thereof whose authenticity is established under the Federal Rules of Evidence, or by the printed publication or a copy of the relevant portion thereof, including the title page and any other page needed to show the place and date of publication, the name and address of the publisher, and the name of the author or the editor. The notice of reliance shall be filed during the testimony period of the party that files the notice.

(2) A registration owned by any party to a proceeding may be made of record in the proceeding by that party by filing a notice of reliance, which shall be accompanied by a certified copy of the registration prepared and issued by the Patent and Trademark Office showing both the current status of and current title to the registration. For the cost of a certified copy of a registration showing status and title, see the second item under §2.6(a). The notice of reliance shall be filed during the testimony period of the party that files the notice. ◄ [to that effect during the period for the taking of the testimony of the party [during the period for taking of testimony-in-chief if such matters are not in rebuttal), specifying the record or the printed publication, the page or pages to be used, indicating generally, its relevance, and accompanied by the record or authenticated copy or the printed publication or a copy. When a copy of an official record of the Patent and Trademark Office is filed, it need not be a certified copy. The notice and copy of the record or publication must be served on each of the other parties].

(d) ► A copy of an official record of the Patent and Trademark Office other than a copy of a registration owned by a party to a proceeding need not be certified to be offered in evidence. ◄ [Upon motion duly made and granted, testimony taken in another proceeding, or testimony taken in a suit between the same parties or those in interest, may be used in a proceeding, so far as relevant and material, subject, however, to the right of any contesting party to recall or demand the recall of witnesses whose testimony has been taken, and to take other testimony in rebuttal of the testimony.]

► (e) By order of the Trademark Trial and Appeal Board, on motion, testimony taken in another proceeding, or testimony taken in a suit or action in a court, between the same parties or those in privity may be used in a proceeding, so far as relevant and material, subject, however, to the right of any adverse party to recall or demand the recall for examination or cross-examination of any witness whose prior testimony has been offered and to rebut the testimony. ◄

31. Section 2.123 is proposed to be amended by revising paragraphs (a), (e)(3), (j) and (k) to read as follows:

§2.123 Trial testimony in inter partes cases.

(a) (1) The testimony [*Manner of taking testimony.* Testimony] of witnesses in inter partes cases may be taken[:(1)] by depositions upon oral examination as provided by this section [,] or [(2)] by depositions upon written questions as provided by [in accordance with the requirements of this section and] §2.124. If a party serves

notice of the taking of a testimonial deposition upon written questions of a witness who is, or will be at the time of the deposition, present within the United States or any territory which is under the control and jurisdiction of the United States, any adverse party may, within fifteen days from the date of service of the notice, file a motion with the Trademark Trial and Appeal Board, for good cause, for an order that the deposition be taken by oral examination.

(2) A testimonial deposition taken in a foreign country shall be taken by deposition upon written questions as provided by §2.124, unless the Board, upon motion for good cause, orders that the deposition be taken by oral examination, or the parties so stipulate.

* * * * *

(e) *Examination of witnesses*:[.]

* * * * *

(3) Every adverse [The opposing] party shall have full opportunity to cross-examine each witness. [the witnesses.] If the notice of examination of witnesses which is served pursuant to subsection (c) is improper or inadequate with respect to any witness, an adverse party may cross-examine that witness under protest while reserving the right to object to the receipt of the testimony in evidence. Promptly after the testimony is completed, the adverse party, if he wishes to preserve the objection, shall move to strike the testimony from the record, which motion will be decided on the basis of all of the relevant circumstances. A motion to strike the testimony of a witness for lack of proper or adequate notice of examination must request the exclusion of the entire testimony of that witness and not only a part of that testimony. ► [opposing party shall attend the examination of witnesses not named in the notice, and shall either cross-examine such witnesses or fail to object to their examination, he shall be deemed to have waived his right to object to such examination for want of notice.]◄

* * * * *

(j) *Effect of errors and irregularities in depositions* ►:◄ [.] Notice will not be taken of merely formal or technical objections which shall not appear to have wrought a substantial injury to the party raising them; and in case of such injury it must be made to appear that, as soon as the party became aware of the ground of objection, he gave notice thereof. Rule 32(d) (1), (2), and (3) ►(A) and (B)◄ [(a) and (b)] of the Federal Rules of Civil Procedure shall apply to errors and irregularities in depositions.

(k) *Objections to admissibility* ►:◄ [.] Subject to the provisions of ► subsection◄ [paragraph] (j) [of this section] , objection may be made to receiving in evidence any deposition ► , ◄ or part thereof, or any other evidence, for any reason which would require the exclusion of the evidence ► from consideration. Objections based on grounds of alleged lack of relevancy, materiality, or competency should be raised in the brief filed under §2.128, but not by a motion to strike testimony regularly taken pursuant to these rules. Objections will be considered at final hearing.◄ [according to the established rules of evidence, which will be applied strictly by the Office.]

32. Section 2.124 is proposed to be revised to read as follows:

§2.124 ► Depositions ◄ [Testimony by depositions] upon written questions.

(a) ► A deposition upon written questions may be taken before any person before whom depositions may be taken as provided by Rule 28 of the Federal Rules of Civil Procedure.◄ [A party may take the testimony of a witness by written questions to be propounded by an officer before whom depositions may be taken. See Rule 28 of the Federal Rules of Civil Procedure. The questions shall be served upon the other party within 10 days after the opening date set for taking the testimony of the party submitting the questions, together with a notice stating the name and address of the person who is to answer them and the name or descriptive title and address of the officer before whom the deposition is to be taken. Within 10 days thereafter, a party so served may serve cross questions upon the party proposing to take the deposition. Within 5 days thereafter, the latter may serve redirect questions upon a party who has served cross questions. Within 3 days after being served with redirect questions a party may serve recross questions upon the party proposing to take the depositions. Written objections to questions may be served on the party propounding the questions, and in response thereto substitute questions may be served, within 3 days.]

(b) ► (1) A party desiring to take a testimonial deposition upon written questions shall serve notice thereof upon each adverse party within ten days from the opening date of the testimony period of the party who serves the notice. The notice shall state the name and address of the witness. A copy of the notice, but not copies of the questions, shall be filed with the Trademark Trial and Appeal Board.

(2) A party desiring to take a discovery deposition upon written questions shall serve notice thereof upon each adverse party and shall file a copy of the notice, but not copies of the questions, with the Board. The notice shall state the name and address, if known, of the person whose deposition is to be taken. If the name of the person is not known, a general description sufficient to identify him or the particular class or group to which he belongs shall be stated in the notice, and the party from whom the discovery deposition is to be taken shall designate one or more persons to be deposed in the same manner as is provided by Rule 30(b)(6) of the Federal Rules of Civil Procedure.◄ [A copy of the notice and copies of all questions served shall be delivered by the party taking the testimony to the officer designated in the notice, who shall proceed to take the testimony of the witness in response to the questions and to prepare each answer immediately preceded by its corresponding question, then certify, and file the deposition, attaching thereto the copy of the notice and the questions received by him. Such depositions are subject to the same rulings for filing and serving copies as other depositions.]

(c) ► Every notice given under the provisions of subsection (b) shall be accompanied by the name or descriptive title of the officer before whom the deposition is to be taken.◄ [On motion made within ten days after service of the notice and written questions, it may be ordered, for good cause shown, that the testimony be not taken in accordance with the section but by oral examination of the witness.]

(d) ► (1) Every notice served on any adverse party under the provisions of subsection (b) shall be accompanied by the written questions to be propounded on behalf of the party who proposes to take the deposition. Within twenty days from the date of service of the notice, any adverse party may serve cross questions upon the party who proposes to take the deposition; any party who serves cross questions shall also serve every other adverse party. Within ten days from the date of service of the cross questions, the party who proposes to take the deposition may serve redirect questions on every adverse party. Within ten days from the date of service of the redirect questions, any party who served cross questions may serve recross questions upon the party who proposes to take the deposition; any party who serves recross questions shall also serve every other adverse party. Written objections to questions may be served on a party propounding questions; any party who objects shall serve a copy of the objections on every other adverse party. In response to objections, substitute questions may be served on the objecting party within ten days of the date of service of the objections; substitute questions shall be served on every other adverse party.

(2) Upon motion for good cause by any party, or upon its own motion, the Trademark Trial and Appeal Board may extend any of the time periods provided by paragraph (1) of this subsection (d) and may, when one

or more testimonial depositions are to be taken upon written questions, suspend or reschedule other proceedings in the matter to allow for the orderly completion of the depositions upon written questions. ◄ [Testimony in foreign countries shall be taken only be depositions upon written questions unless the parties stipulate otherwise in writing. Rule 28(b) of the Federal Rules of Civil Procedure shall apply to the taking of testimony in foreign countries.]

► (e) Within ten days after the last date when questions, objections, or substitute questions may be served, the party who proposes to take the deposition shall mail a copy of the notice and copies of all the questions to the officer designated in the notice; a copy of the letter to the office shall be served on every adverse party. The officer designated in the notice shall take the testimony of the witness in response to the questions and shall record each answer immediately after the corresponding question. The officer shall then certify the transcript and mail the transcript and exhibits to the party who took the deposition.◄

►(f) the party who took the deposition shall promptly serve a copy of the transcript, copies of documentary exhibits, and duplicates or photographs of physical exhibits on every adverse party. It is the responsibility of the party who takes the deposition to assure that the transcript is correct. If the deposition is a discovery deposition, it may be made of record as provided by §2.120(j).

If the deposition is a testimonial deposition, the original and one copy, together with copies of documentary exhibits and duplicates or photographs of physical exhibits, shall be filed promptly with the Trademark Trial and Appeal Board.◄

► (g) Objections to questions and answers in depositions upon written questions may be considered at final hearing.◄

33. Section 2.125 is proposed to be revised to read as follows:

§2.125 ► Filing and Service ◄ [Copies] of testimony.

(a) One copy of the transcript of testimony [(] taken in accordance with §2.123 [(e) through (h) or §2.124)], together with copies of documentary exhibits ► and duplicates or photographs of physical exhibits ◄ , shall be served on each adverse party within ► thirty ◄ [30] days after completion of the taking of ► that ◄ [such] testimony. [The certified transcript and exhibits and one copy of the transcript shall be filed in the Patent and Trademark Office as promptly as possible.]

(b) ► The party who takes testimony is responsible for having all typographical errors in the transcript and all errors of arrangement, indexing and form of the transcript corrected, on notice to each adverse party, prior to the filing of one certified transcript and one copy of the transcript with the Trademark Trial and Appeal Board. The party who takes testimony is responsible for serving on each adverse party one copy of the corrected transcript or, if reasonably feasible, corrected pages to be inserted into the transcript previously served. ◄ [(b) Each transcript and the copies thereof shall comply with §2.123(g) as to arrangement, indexing and form.]

► (c) One certified transcript and exhibits and one copy of the transcript shall be filed promptly with the Trademark Trial and Appeal Board. Notice of such filing shall be served on each adverse party and a copy of each notice shall be filed with the Board.◄

► (d) Each transcript and the copies thereof shall comply with §2.123(g) with respect to arrangement, indexing and form.◄

► (e) Upon motion by any party, for good cause, the Trademark Trial and Appeal Board may order that any part of a deposition transcript or any exhibits that directly disclose any trade secret or other confidential research, development, or commercial information may be filed under seal and kept confidential under the provisions of §2.27(e). If any party or any attorneys or agent of a party fails to comply with an order made under this paragraph, the Board may impose any of the sanctions authorized by §2.120(g).◄

§2.126 [Removed].

34. It is proposed to remove §2.126. Allegations in application not evidence on behalf of applicant.

35. Section 2.127 is proposed to be revised to read as follows:

§2.127 Motions.

[(a) ► Every motion ◄ [Motions] shall be made in writing ► , ◄ [and] shall contain a full statement of the ► grounds, and shall embody or be accompanied by a brief. ◄ [grounds therefor. Any brief or memorandum in support of a motion shall accompany or be embodied in the motion.] ► A brief in response ◄ [Briefs in opposition] to a motion shall be filed within fifteen days from the date of service of the motion unless another time is specified by the Trademark Trial and Appeals Board or the time is extended ► by order of the Board on motion for good cause. ◄ [on request] ► When ◄ [Where] a party fails to file a brief in ► response ◄ [opposition] to a motion, the Trademark Trial and Appeal] Board may treat the motion as conceded. ► An oral hearing ◄ [Oral hearings] will not be held on ► a motion ◄ [motions] except on order ► by ◄ [of] the [Trademark Trial and Appeal] Board.

(b) Any request for [rehearing or] reconsideration [,] or modification of ► an order or ◄ [a] decision ► issued ◄ [,] on a motion [which is not finally dispositive of the case,] must be filed within thirty days from the date thereof. ► A brief in response must ◄ [Any brief in opposition shall] be filed within fifteen days ► from the date of ◄ [after] service of the request.

(c) Interlocutory motions, requests, and other matters not ► actually or potentially dispositive of a ◄ [finally determinative in the] proceeding may be acted upon by a ► single Member ◄ [member] of the Trademark Trial and Appeal Board ► or by an Attorney-Examiner of the Board to whom authority so to act has been delegated.◄

► (d) When any party files a motion to dismiss, or a motion for judgment on the pleadings, or a motion for summary judgment, or any other motion which is potentially dispositive of a proceeding, the case will be suspended by the Trademark Trial and Appeal Board with respect to all matters not germane to the motion and no party should file any paper which is not germane to the motion. If the case is not disposed of as a result of the motion, proceedings will be resumed pursuant to an order of the Board when the motion is decided.◄

36. Section 2.128 is proposed to be amended by revising paragraphs (a) and (b) to read as follows:

§2.128 ► Briefs at final hearing. ◄ [Final hearings and briefs.]

(a) ► (1) ◄ The brief of ► the ◄ [a] party in the position of plaintiff shall be filed not later than sixty days after the [closing] date set for ► the close of ◄ rebuttal testimony ► . The ◄ [; the] brief of ► the ◄ [a] party in the position of defendant ► shall be filed ◄ not later than thirty days after the due date of the first brief ► . A. ◄ [; a] reply brief by ► the ◄ [a] party in the position of plaintiff ► may be ◄ [, if] filed ► not later than ◄ [, shall be due] fifteen days after the due date of the ► defendant's ◄ brief [to which it is a reply]. [Three copies of all briefs should be filed.]

► (2) When there is a counterclaim, or when proceedings have been consolidated and one party is in the position of plaintiff in one of the involved proceedings and in the position of defendant in another of the involved proceedings, or when there is an interference or concurrent use registration proceeding involving more than the two parties, the Trademark Trial and Appeal Board will set the due dates for the filing of the main brief, and the answering brief, and the rebuttal brief by the parties.

(3) When a party in the position of plaintiff fails to file a main brief or a party in the position of defendant fails

to file a brief, the Board may treat such failure as a concession of the case. ◄

(b) Briefs shall be submitted in typewritten or printed form, double spaced ►, ◄ on letter or legal size paper. Without leave of the Trademark Trial and Appeal Board, no brief shall contain more than ► fifty ◄ [50] pages of argument and, in the case of a reply brief, the entire brief shall not exceed ► twenty-five ◄ [25] pages. Each brief shall not exceed ► twenty-five ◄ [25] pages. Each brief shall contain an alphabetical index of cases ► cited ◄ therein. ► One original and two legible copies, on good quality paper, of each brief shall be filed. ◄

37. Section 2.129 is proposed to be revised to read as follows:

§2.129 Oral argument[s and] ► ; ◄ reconsideration.

(a) ► If a party desires to have an oral argument at final hearing, the party shall request such argument by a separate notice filed not later than ten days after the due date for the filing of the last reply brief in the proceeding. ◄ Oral arguments will be heard by [at least] three Members of the Trademark Trial and Appeal Board at the time ► specified ◄ [stated] in the notice ► of hearing ◄ . If any party appears at the specified time, ► that party ◄ [he] will be heard. If the Board is prevented from hearing the case at the ► specified time ◄ [time specified,] a new ► hearing date will be set. ◄ [assignment will be made, or the case will be continued from day to day until heard.] Unless otherwise permitted, oral arguments ► in an inter partes case ◄ will be limited to ► thirty minutes ◄ [one-half hour] for each party. ► A party in the position of plaintiff may reserve part of the time allowed for oral argument to present a rebuttal argument. ◄

(b) ► The date of time of a hearing may be reset, so ◄ [Hearings may be advanced or adjourned, as] far as is convenient and proper, to meet the wishes of the parties and their attorneys or other authorized representatives.

(c) Any request for rehearing or reconsideration [,] or modification of a decision ► issued after final hearing ◄ [, including a decision on a motion which is finally dispositive of a case,] must be filed within thirty days from the date ► of the decision ◄ [thereof] . ► A ◄ [Any] brief in ► response must ◄ [opposition shall] be filed within fifteen days ► from the date of ◄ [after] service of the request. The times specified [herein] may be extended by ► order of ◄ the Trademark Trial and Appeal Board ► on motion for good cause ◄ [upon a showing of sufficient cause].

38. Section 2.131 is proposed to be revised to read as follows:

§2.131 ► Remand after decision ◄ [Ex parte matter] in [an] inter partes ► proceeding ◄ [case].

► If, during an inter partes proceeding, facts are disclosed which appear to render the mark of an applicant unregistrable, but such matter has not been tried under the pleadings as filed by the parties or as they might be deemed to be amended under Rule 15 [b] of the Federal Rules of Civil Procedure to conform to the evidence, the Trademark Trial and Appeal Board, in lieu of determining the matter in the decision on the proceeding, may refer the application to the examiner for reexamination in the event the applicant ultimately prevails in the inter partes proceeding. Upon receiving the application, the examiner shall withhold registration pending reexamination of the application in the light of the reference by the Board. ◄ [If, in considering an inter partes case involving an application, facts appear which, in the opinion of the Trademark Trial and Appeal Board, render the mark of the applicant unregistrable on one or more ex parte grounds, the Board shall in its decision on the inter partes issues in the case recommend that if the applicant finally prevails in the case, registration be withheld pending a reexamination by the Examiner to Trademarks of the application in the light of such facts.] If, upon [such] reexamination [following termination of the inter partes case the ► examiner ◄ [Examiner of Trademarks] finally refuses registration to the applicant, an appeal may be taken as provided by §§2.141 and 2.142.

39. Section 2.132 is proposed to be revised to read as follows:

§2.132 ► Involuntary dismissal for failure ◄ [Failure] to take testimony.

(a) ► If the time for taking testimony by any party in the position of plaintiff has expired and that party has not taken testimony or offered any other evidence, any party in the position of defendant may, without waiving the right to offer evidence in the event the motion is denied, more for dismissal on the ground of the failure of the plaintiff to prosecute. The party in the position of plaintiff shall be allowed fifteen days from the date of service of the motion to show cause why judgment should not be rendered against him. In the absence of a showing of good and sufficient cause, judgment may be rendered against the party in the position of plaintiff. If the motion is denied, testimony periods will be reset for the party in the position of defendant and for rebuttal. ◄ [Upon the filing of a statement by any party in the position of defendant, that the time for taking testimony on behalf of any party in the position of plaintiff has expired and that no testimony has been taken by him and no other evidence offered, an order may be entered that such party show cause within a time set therein, not less than ten days, why judgment should not be rendered against him, and in the absence of a showing of good and sufficient cause judgment may be rendered as by default.]

(b) If no evidence other than a copy of copies of Patent and Trademark Office records is offered by ► any ◄ [the] party in the position of plaintiff, any party in the position of defendant ► may ◄ , without waiving the right to offer evidence in the event the motion is denied, [may] move for dismissal on the ground that upon the law and the facts the party in the position of plaintiff has shown no right to relief. The party in the position of plaintiff shall be allowed fifteen days ► from the date of ◄ [after] service of the motion to file ► a brief in response ◄ [his argument in opposition] to the motion. ► The Trademark Trial and Appeal Board may render judgment ◄ [Judgment may be rendered] against the party in the position of plaintiff, or the [Trademark Trial and Appeal] Board may decline to render judgment until all of the evidence is in ► the record ◄ .

► If judgment is not rendered, ◄ [In the latter event,] testimony periods will be reset for the party in ► the ◄ position of defendant and for rebuttal.

► (c) Any motion filed under subsection (a) or (b) must be filed before the opening of the testimony period of the moving party . ◄

40. Section 2.134 is proposed to be revised to read as follows:

§2.134 Surrender or ► voluntary ◄ cancellation of registration.

► (a) After the commencement of a cancellation proceeding, if the respondent ◄ [If a registrant involved in a proceeding] applies ► for cancellation of the involved ◄ [to cancel his] registration under ► § ◄ [section] 7(d) of the ► Trademark ◄ Act without [first obtaining] the written consent [thereto] of ► every ◄ [the] adverse party, judgment shall be entered against ► the respondent ◄ [him].

► (b) After the commencement of a cancellation proceeding, if the respondent permits his involved registration to be cancelled under §8 of the Trademark Act or fails to renew his involved registration under §9 of the Trademark Act, such cancellation or failure to renew shall be deemed to be the equivalent of a cancellation by request of respondent without the consent of the adverse party and shall result in judgment against respondent as provided be subsection (a). ◄

41. Section 2.135 is proposed to be revised to read as follows:

§2.135 Abandonment of application or mark.

►After the commencement of an opposition proceeding, if the ◄ [If, in a proceeding, an] applicant files a written abandonment of the application or of the mark without the ►written◄ consent [thereto] of ►every◄ [the] adverse party, judgment shall be entered against ► the ◄ [such] applicant.

42. Section 2.142 is proposed to be revised to read as follows:

§2.142 Time and manner of ex parte appeals.

(a) ►Any◄ [such] appeal►filed under the provisions of §2.141◄ must be ►filed◄ [taken] within six months from the date of final refusal or [from] the date of the action from which ► the ◄ appeal is taken. ►An appeal◄ [Appeal] is taken [simply] by filing a notice of appeal and ►paying◄ [payment of] the appeal fee.

(b) The [appellent's] brief ►of appellant◄ shall be filed within sixty days ►from◄ [after] the date of appeal. If the brief is not filed within the time allowed, the appeal may be dismissed. The examiner ►shall◄ [may], within ►sixty days after the brief of appellant is sent to the examiner◄ [such time as may be directed by the Commissioner], ►filed with the Trademark Trial and Appeal Board◄ [furnish] a written statement ►answering every point in the brief of appellant and shall mail◄ [in answer to appellant's brief, supplying] a copy ►of the statement◄ to the appellant. The appellant may file a reply brief within twenty days from the date of ►mailing of the statement of the examiner◄ [such answer].

(c) ►All requirements made by the examiner and not the subject of appeal shall be complied with prior to the filing of an appeal.◄ [If the appellant desires an oral hearing, he should so state by separate notice filed not later than his brief; and due notice of the time for such hearing will be given. Oral argument will be limited to one-half hour unless otherwise permitted. If no request for oral hearing is made, the appeal will be considered on brief.]

(d) ►The record in the application should be complete prior to the filing of an appeal. The Trademark Trial and Appeal Board will ordinarily not consider additional evidence filed with the Board by the appellant or by the examiner after the appeal is filed. After an appeal is filed, if the appellant or the examiner desires to introduce additional evidence, the appellant or the examiner may request the Board to suspend the appeal and to remand the application for further examination.◄ [Applications which have been considered and decided on appeal will not be reopened except by order of the Commissioner and then only for consideration of matters not already adjudicated, sufficient cause being shown.]

►(e)(1) If the appellant desires an oral hearing, a request therefore should be made by a separate notice filed not later than ten days after the due date for a reply brief. Oral argument will be heard by three Members of the Trademark Trial and Appeal Board at the time specified in the notice of hearing, which may be reset if the Board is prevented from hearing the argument at the specified time, or so far as is convenient and proper, to meet the wish of the appellant or his attorney or other authorized representative.

(2) If the appellant requests an oral argument, the examiner who issued the refusal of registration or the requirement from which the appeal is taken, or in lieu thereof another examiner from the same examining division as designated by the supervisory attorney thereof, shall present an oral argument.

If no request for an oral hearing is made by the appellant, the appeal will be decided on the record, briefs and statement.

(3) Oral argument will be limited to twenty minutes by the appellant and ten minutes by the examiner. The appellant may reserve part of the time allowed for oral argument to present a rebuttal argument.

►(f)(1) If, during an appeal from a refusal of registration, it appears to the Trademark Trial and Appeal Board that an issue not previously raised may render the mark of the appellant unregistrable, the Board may suspend the appeal and remand the application to the examiner for further examination within thirty days.

(2) If the further examination does not result in an additional ground for refusal or registration, the examiner shall promptly return the application to the Board, for resumption of the appeal, with a written statement that further examination did not result in an additional ground for refusal of registration.

(3) If the further examination does result in an additional ground for refusal of registration, the examiner and appellant shall proceed as provided by §§2.61, 2.62, 2.63, and 2.64. If the ground for refusal of registration is made final, the examiner shall return the application to the Board, which shall thereupon issue an order allowing the appellant sixty days from the date of the order to file a supplemental brief limited to the additional ground for the refusal of registration. If the supplemental brief is not filed by the appellant within the time allowed, the appeal may be dismissed.

(4) If the supplemental brief of the appellant is filed, the examiner shall, within sixty days after the supplemental brief of the appellant is sent to the examiner, file with the Board a written statement answering every point in the supplemental brief of appellant and shall mail a copy of the statement to the appellant. The appellant may file a reply brief within twenty days from the date of mailing of the statement of the examiner.

(5) If an oral hearing on the appeal had been requested prior to the remand of the application but not yet held, an oral hearing will be set and heard as provided in subsection (e). If an oral hearing had been held prior to the remand or had not been previously requested by the appellant, an oral hearing may be requested by the appellant by a separate notice filed not later than ten days after the due date for a reply brief on the additional ground for refusal of registration. If the appellant files a request for an oral hearing, one will be set and heard as provided in subsection (e).◄

►(g) An application which has been considered and decided on appeal will not be reopened except for the entry of a disclaimer under §6 of the Trademark Act or upon order of the Commissioner, but a petition to the Commissioner to reopen an application will be considered only upon a showing of sufficient cause for consideration of any matter not already adjudicated.◄

43. Section 2.146 is proposed to be revised to read as follows:

§2.146 ►Petitions◄ [Petition] to the Commissioner.

(a) Petition may be taken to the Commissioner:

(1) From any repeated ►or final formal◄ [action or] requirement of the ►examiner◄ [Examiner of Trademarks, not subject to appeal under §2.141,] in the ex parte prosecution of an application ►if permitted by §2.63(b)◄:

(2) IN ►any case for◄ [cases in] which the► Trademark Act, or title 35 of the United States Code, or this Part of Title 37 of the Code of Federal Regulations specifies ◄ [statute or the rules specify] that the matter is to be determined directly [by] or reviewed by the Commissioner; [and]

(3) To invoke the supervisory authority of the Commissioner in appropriate circumstances ►; ◄ [.]

►(4) In any case not specifically defined and provided for by this Part of Title 37 of the Code of Federal Regulations;

(5) In an extraordinary situation, when justice requires and no other party is injured thereby, to request a suspension or waiver of any requirement of the rules not being a requirement of the Trademark Act.◄

(b) ►Questions arising under §§2, 3, 4, 5, 6 and 23 of the Trademark Act during the ex parte prosecution of applications are not considered to be appropriate subject matter for petitions to the Commissioner.◄ [Any such

petition must contain a statement of the facts involved and the point or points to be reviewed and the action requested. Any brief in support thereof should accompany or be embodied in the petition; in contested cases any brief in opposition shall be filed within fifteen days after service of the petition. Where facts are to be proved in ex parte cases (as in a petition to revive an abandoned application), the proof in the form of affidavits or declarations in accordance with §2.20 (and exhibits, if any) must accompany the petition.]

(c) ► Every petition to the Commissioner shall include a statement of the facts relevant to the petition, the points to be reviewed, and the action or relief that is requested. Any brief in support of the petition shall be embodied in or accompany the petition. When facts are to be proved in ex parte cases (as in a petition to revive an abandoned application), the proof in the form of affidavits or declarations in accordance with §2.20, and any exhibits, shall accompany the petition. ◄ [An oral hearing will not be held except when considered necessary by the Commissioner.]

(d) ► A petition on any matter not specifically provided for by subsection (e) or by §2.165(b) or §2.184(b) shall be filed within sixty days from the date of mailing of the action from which relief is requested. ◄ [The mere filing of a petition will not stay the period for replying to an examiner's action, nor stay other proceedings.]

(e) ► (1) A petition from the denial of a request for an extension of time to file a notice of opposition shall be filed within fifteen days from the date of mailing of the denial of the request and shall be served on the attorney or other authorized representative of the applicant, if any, or on the applicant. Proof of service of the petition shall be made as provided by §2.119(a). The applicant may file a response within fifteen days from the date of service of the petition and shall serve a copy of the response on the petitioner, with proof of service as provided by §2.119(a). No further paper relating to the petition shall be filed.

(2) A petition from an interlocutory order of the Trademark Trial and Appeal Board shall be filed within thirty days after the date of mailing of the order from which relief is requested. Any brief in response to the petition shall be filed, with any supporting exhibits, within fifteen days from the date of service of the petition. Petitions and responses to petitions, and any papers accompanying a petition or response, under this subsection shall be served on every adverse party pursuant to §2.119(a). ◄ [Authority to act on a petition may, when appropriate, be delegated by the Commissioner.]

(f) ► An oral hearing will not be held on a petition except when considered necessary by the Commissioner. ◄ [No fee is required for a petition to the Commissioner.]

► (g) The mere filing of a petition to the Commissioner will not act as a stay in any appeal or inter partes proceeding that is pending before the Trademark Trial and Appeal Board nor stay the period for replying to an Office action in an application except when a stay is specifically requested and is granted or when §§2.63(b) and 2.65 are applicable to an ex parte application. ◄

► (h) Authority to act on petitions, or on any petition, may be delegated by the Commissioner. ◄

§2.147 [Removed]

44. It is proposed to remove §2.147 Cases not specifically defined.

§2.148 [Removed]

45. It is proposed to remove §2.148 Commissioner may suspend certain rules.

46. Section 2.165 is proposed to be revised to read as follows:

§2.165 Reconsideration of affidavit or declaration.

(a) ► (1) ◄ If the affidavit or declaration ► filed pursuant to §2.612 ◄ is insufficient ► or defective, the affidavit or declaration will be refused and ◄ [,] the registrant will be notified of the ► reason. ◄ [reasons by the examiner.] Reconsideration of ► the ◄ [such] refusal may be requested within six months from the date of the mailing of the ► action ◄ [notice]. The request for reconsideration must state the grounds for the request. A ◄ [therefore; a] supplemental or substitute affidavit or declaration required by ► § ◄ [section] 8 of the ► Trademark ◄ Act cannot be considered unless it is ► filed ◄ [received] before the expiration of six years from the date of the registration [,] or from the date of publication under ► § ◄ [section] 12(c) ► of the Act ◄ . ► The certificate of mailing procedure provided by §1.8 does not apply to affidavits or declarations or to supplemental or substitute affidavits or declarations filed under §8 (a) or (b) of the Act.

(2) A request for reconsideration shall be a condition precedent to a petition to the Commissioner to review the refusal of the affidavit or declaration unless the first action refusing the affidavit or declaration directs the registrant to petition the Commissioner for relief, in which event the petition must be filed within six months from the date of mailing of the action. ◄

(b) ► If the refusal of the affidavit or declaration is adhered to, the registrant may petition the Commissioner to review the action under §2.146(a)(2). The petition to the Commissioner requesting review of the action adhering to the refusal of the affidavit or declaration must be filed within six months from the date of mailing of the action which denied reconsideration. ◄ [If the registrant is dissatisfied with the action of the examiner holding the affidavit or declaration insufficient, he may request the Commissioner to review the action under §2.146. The decision of the Commissioner on such a request constitutes the final action of the Patent Trademark Office. If there is no review by the Commissioner, the Commissioner will notify the registrant of the insufficiency of the affidavit or declaration after the expiration of the sixth year, which notice will constitute such final action. See §2.145 for appeal to or review by court.]

► (c) The decision of the Commissioner on the petition will constitute the final action of the Patent and Trademark Office. If there is no petition to the Commissioner, the Commissioner will notify the registrant of the refusal of the affidavit or declaration after the expiration of six years from the date of registration or from the date of publication under §12(c) of the Trademark Act, and such notice will constitute the final action of the Office. ◄

► (d) A petition to the Commissioner for review of the action shall be a condition precedent to an appeal to or action for review by any court. ◄

47. Section 2.173 is proposed to be amended by revising paragraph (b) to read as follows:

§2.173 Amendment ►; ◄ [and] disclaimer in part.

* * * * *

(b) ► No amendment in the identification of goods or services in a registration will be permitted except to restrict the identification or otherwise to change it in ways that would not require republication of the mark. ◄ [Changes in the identification of goods other than in the nature of deletions will not be permitted except under the provisions of §2.175.] No amendment seeking the elimination of a disclaimer will be permitted.

* * * * *

48. Section 2.184 is proposed to be revised to read as follows:

§2.184 Refusal of renewal.

(a) If the application for renewal is incomplete or defective, the renewal will be refused [by the Examiner of Trademarks]. The application may be completed or amended in response to a refusal, subject to the provisions of ► § ◄ [§§2.62 and] 2.183. ► If a response to a refusal or renewal is not filed within six months from the date of mailing of the action, the application for re-

newal will be considered abandoned. A response to a refusal of renewal shall be a condition precedent to a petition to the Commissioner to review the refusal of renewal. ◄

(b) ► If the refusal to renewal is adhered to, the registrant may petition the Commissioner to review the action under §2.146(a)(2). The petition to the Commissioner requesting review of the action adhering to the refusal of the renewal must be filed within six months from the date of mailing of the action which adhered to the refusal. If a timely petition to the Commissioner is not filed, the application for renewal will be considered abandoned. ◄ [If the registrant is dissatisfied with the action of the examiner considering the application for renewal incomplete or defective, he may request the Commissioner to review the action under §2.146. If response to an adverse action of the examiner is not made within six months, the application for renewal will be considered abandoned.]

► (c) The decision of the Commissioner on the petition will constitute the final action of the Patent and Trademark Office. ◄

► (d) A petition to the Commissioner for review of the action shall be a condition precedent to an appeal to or action for review by any court. ◄

49. Section 2.186 is proposed to be revised to read as follows:

§2.186 Action may be taken by assignee of record.

Any action ► with respect to an assigned application or registration ◄ which may or must be taken by a registrant or applicant may be taken by the assignee [,] provided ► that ◄ the assignment has been recorded.

Note: Mail Processing and Delivery

The statistics for mail processing and delivery indicate the average time required to process mail from the time it is received in the Mail Room of the Patent and Trademark Office until it is delivered to the organization. For example, it reflects the time it takes for a paper to be delivered to an Examining Group, not the Examiner. Mail often receives additional clerical processing in the Group, depending on the type of document. It is not unusual for mail to take a few weeks to actually reach the Examiner. However, the official receipt date is that which is stamped in the Mail Room, reflecting the date the mail was received in the Office.

Revision of Patent and Trademark Fees

AGENCY: Patent and Trademark Office, Commerce

ACTION: Proposed rule; extension of comment period.

SUMMARY: On June 28, 1982, notices of proposed rulemaking were published in the Federal Register (47 FR 28042-28065) advising that the Patent and Trademark Office was proposing to amend the rules of practice in patent and trademark cases to establish procedures and fees in amounts which comply with the requirements of Public Law 96-517 or which would apply with enactment of H.R. 6260 as a Public Law.

Those notices provided that comments regarding the proposed rulemakings must be submitted on or before July 9, 1982.

At the hearings on the proposed rule changes relating to the "Revision of Patent and Trademark Fees" held on July 9, 1982, several persons requested additional time to comment on the proposed rules (§§1.9(c)-(f), 1.27 and 1.28) for implementing the procedures for the payment of lower fees by independent inventors, small business concerns, and nonprofit organizations. Requests were also received for additional time to comment on the proposed deletion of Parts 3 and 4 of Title 37, Code of Federal Regulations, which parts relate to patent and trademark forms.

In view of the requests, the Patent and Trademark Office is extending the period for written comments only on §§1.9, 1.27 and 1.28 and the proposed deletion of Parts 3 and 4 of Title 37, Code of Federal Regulations, until August 13, 1982. Adoption of these changes is being deferred at this time to permit receipt of additional comments.

DATE: The time for filing comments on §§1.9(c)-(f), 1.27, and 1.28, and the proposed deletion of Parts 3 and 4 is hereby extended to and including August 13, 1982.

ADDRESSES: FOR FURTHER INFORMATION AND SUBMISSION OF WRITTEN COMMENTS AS TO §§1.9, 1.27, 1.28 AND THE PROPOSED DELETION OF PART 3, CONTACT: R. Franklin Burnett by telephone at (703) 557-3054 or by mail addressed to the Commissioner of Patents and Trademarks, Attention: R. Franklin Burnett, Room 3-11A13, Washington D.C. 20231.

MARKS PUBLISHED FOR OPPOSITION

The following marks are published in compliance with section 12(a) of the Trademark Act of 1946. Applications for the registration of marks in more than one class have been filed as provided in section 30 of said act as amended by Public Law 772, 87th Congress, approved Oct. 9, 1962, 76 Stat. 769. Opposition under section 13 may be filed within thirty days of the date of this publication. See Rules 2.101 to 2.105.

A separate fee of twenty-five dollars for opposing each mark in each class must accompany the opposition.

SECTION 1.—INTERNATIONAL CLASSIFICATION

The short titles associated below with the international class numbers are terms designed merely for quick identification and are not an official part of the international classification. The full names of international classes are given in section 6.1 of the trademark rules of practice.

The designation "U.S. Cl." appearing in this section refers to the U.S. class in effect prior to Sep. 1, 1973 rather than the international class which applies to applications filed on or after that date. For adoption of international classification see notice in the OFFICIAL GAZETTE of Jun. 26, 1973 (911 O.G. TM 210).

SECTION 2.—INTERNATIONAL CLASSIFICATION

The short titles associated below with the international class numbers are terms designed merely for quick identification and are not an official part of the international classification. The full names of international classes are given in section 6.1 of the trademark rules of practice.

The designation "U.S. Cl." appearing in this section refers to the U.S. class in effect prior to Sep. 1, 1973 rather than the international class which applies to applications filed on or after that date. For adoption of international classification see notice in the OFFICIAL GAZETTE of Jun. 26, 1973 (911 O.G. TM 210).

SECTION 1.—INTERNATIONAL CLASSIFICATION

The short titles associated below with the international class numbers are terms designed merely for quick identification and are not an official part of the international classification. The full names of international classes are given in section 6.1 of the trademark rules of practice.

The designation "U.S. Cl." appearing in this section refers to the U.S. class in effect prior to Sep. 1, 1973 rather than the international class which applies to applications filed on or after that date. For adoption of international classification see notice in the OFFICIAL GAZETTE of Jun. 26, 1973 (911 O.G. TM 210).
